reading and old fashioned fortune telling now called psychic consulting all these are popular in America today Psychic hotlines are heavily represented on television with testimonials to their amazing ability to give people accurate details about their past and predictions about their future Are psychics indeed gifted with supernatural powers Andre Kole and Terry Holley show convincingly how the success of these and other paranormal phenomena depends on deceit and slight of hand rather than on genuine supernatural powers This is an age when countless groups and movements new and old mark the religious landscape in our culture As a result many people are confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully the Zondervan Guide to Cults and Religious Movements series provides essential information and insights for their spiritual journeys The second wave of books in this series addresses a broad range of spiritual beliefs from non Trinitarian Christian sects to witchcraft and neo paganism to classic non Christian religions such as Buddhism and Hinduism All books but the summary volume Truth and Error contain five sections A concise introduction to the group being surveyed An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group Truth and Error the last book in the series consists of parallel doctrinal charts compiled from all the other volumes Three distinctives make this series especially useful to readers Information is carefully distilled to bring out truly essential points rather than requiring readers to sift their way through a sea of secondary details Information is presented in a clear easy to follow outline form with menu bar running heads This format greatly assists the reader in quickly locating topics and details of interest Each book meets the needs and skill levels of both nontechnical and technical readers providing an elementary level of refutation and progressing to a more advanced level using arguments based on the biblical text The writers of these volumes are well qualified to present clear and reliable information and help readers to discern truth from falsehood

**Seeing the Light** Michael J. Eckstein, John S. Knox, 2023-03-27 For every human on earth the clock is ticking towards their inevitable death Whether one lives to the oldest of ages expiring quietly or death comes suddenly with a slip on the ice or in any other of the myriad of ways people die the end of biological life is the outcome for everyone For the Christian however there is the expectation of continuation beyond this fleeting life on earth Naturalists have no such optimism and can only hope that their time on earth is a pleasant one Because Christians have a divine assurance they want to share that hope with others Still theological questions remain Can near death experiences help lead those far from Christ to him Can they be added to the repertoire of apologetic arguments for Christianity This book examines the truth surrounding near death experiences how they have been seen in human culture what the scientific community is learning about those who have near death experiences and how near death experiences can be used or not used in your evangelistic encounters
