Forces in Motion Graham Lock, 2018-07-18 Based on interviews from a 1985 tour this book profiles one of jazz's most important figures Anthony Braxton discusses the expression of his musical visions and related ethical political and spiritual beliefs Absolutely essential reading *The Wire*

A Pure Solar World Paul Youngquist, 2016-10-25 Youngquist brings considerable skills to the life and work of the legendary but underappreciated and often misunderstood composer keyboardist and poet PopMatters Sun Ra said he came from Saturn Known on earth for his inventive music and extravagant stage shows he pioneered free form improvisation in an ensemble setting with the devoted band he called the Arkestra Sun Ra took jazz from the inner city to outer space infusing traditional swing with far out harmonies rhythms and sounds Described as the father of Afrofuturism Sun Ra created space music as a means of building a better future for American blacks here on earth In *A Pure Solar World* Sun Ra and the Birth of Afrofuturism Paul Youngquist explores and assesses Sun Ra's wide ranging creative output music public preaching graphic design film and stage performance and poetry and connects his diverse undertakings to the culture and politics of his times including the space race the rise of technocracy the civil rights movement and even space age bachelor pad music By thoroughly examining the astro black mythology that Sun Ra espoused Youngquist masterfully demonstrates that he offered both a holistic response to a planet desperately in need of new visions and vibrations and a new kind of political activism that used popular culture to advance social change In a nation obsessed with space and confused about race Sun Ra aimed not just at assimilation for the socially disfranchised but even more at a wholesale transformation of American society and a more creative egalitarian world A welcome invitation to the spaceways *Jazzwise*
