Priesthood and Temple in John's Apocalypse Timothy B. Tse, 2024-12-12 Timothy B Tse argues that while John uses language drawn from the Hebrew Bible's descriptions of YHWH's dwelling place scholarship has overlooked the importance of his spatial transformation of that language Tse thus uses theories relating to Relevance Resistance Theory Critical Space Theory and Conceptual Metaphor to demonstrate that a significant part of John's apocalyptic strategy of resistance is to re present his vision to his audience spatially so that they can experience a divinely ordained alternative to the world in which they live Tse first demonstrates John's attempts to relegate his audience's experience of space to his own revelation John's description of the visionary world creates the metaphors the earth is a Sanctuary and the Saints are its priests Tse argues that under this view life on earth must be evaluated according to the concerns of the Sanctuary which by definition requires the removal of everything impure and the Saints namely all Christians in both the historic and visionary worlds must take priestly responsibility for the earth John therefore portrays the Saints joining in the removal of all impurity upon the earth by fighting as priests in God and the Lamb's war against Satan Babylon and all her impurities Tse concludes that overall John means to realign the church's experience of space so that they understand themselves as priests of the Sanctuary and live according to that reality

Current Approaches to Metaphor Analysis in Discourse Ignasi Navarro i Ferrando, 2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse

Corpus-Based Approaches to Metaphor and Metonymy Anatol Stefanowitsch, Stefan Th. Gries, 2008-08-22 The

papers in this volume deal with the issue of how corpus data relate to the questions that cognitive linguists have typically investigated with respect to conceptual mappings. The authors in this volume investigate a wide range of issues: the coherence and function of particular metaphorical models; the interaction of form and meaning; the identification of source domains of metaphorical expressions; the relationship between metaphor and discourse; the priming of metaphors; and the historical development of metaphors. The studies deal with a variety of metaphorical and metonymic source and target domains including the source domains SPACE, ANIMALS, BODY PARTS, ORGANIZATIONS and WAR, and the target domains VERBAL ACTIVITY, ECONOMY, EMOTIONS and POLITICS. In their studies, the authors present a variety of corpus linguistic methods for the investigation of conceptual mappings: for example, corpora annotated for semantic categories, concordances of individual source domain items and patterns, and concordances of target domain items. In sum, the papers in this volume show how a wide range of corpus linguistic methods can be used to investigate a variety of issues in cognitive linguistics; the combination of corpus methods with a cognitive linguistic view of metaphor and metonymy yields new answers to old questions and to new questions about the relationship between language as a conceptual phenomenon and language as a textual phenomenon.

Yearbook of Corpus Linguistics and Pragmatics 2014 Jesús Romero-Trillo, 2014-06-02

The Yearbook of Corpus Linguistics and Pragmatics addresses the interface between the two disciplines and offers a platform to scholars who combine both methodologies to present rigorous and interdisciplinary findings about language in real use. Corpus linguistics and Pragmatics have traditionally represented two paths of scientific thought parallel but often mutually exclusive and excluding. Corpus Linguistics can offer a meticulous methodology based on mathematics and statistics while Pragmatics is characterized by its effort in the interpretation of intended meaning in real language. This series will give readers insight into how pragmatics can be used to explain real corpus data and also how corpora can illustrate pragmatic intuitions. The present volume Yearbook of Corpus Linguistics and Pragmatics 2014 New Empirical and Theoretical Paradigms in Corpus Pragmatics proposes innovative research models in the liaison between pragmatics and corpus linguistics to explain language in current cultural and social contexts.

Metaphor in Communication, Science and Education Francesca Ervas, Elisabetta Gola, Maria Grazia Rossi, 2017-08-07 This collection of papers presents some recent trends in metaphor studies that propose new directions of research on the embodied cognition perspective. The overall volume in particular shows how the embodied cognition still remains a relevant approach in a multidisciplinary research on the communicative side of metaphors by focusing on both comprehension processes in science as well as learning processes in education.

The Conceptual Worlds of the Fourth Gospel Charles B. Puskas, C. Michael Robbins, 2021-01-08 Over and under and through John's story of Jesus are unforgettable ideas and concepts profoundly simple and simply profound for the author's own audience and beyond. These ideas did not originate in a vacuum. They have recurred and been repeated before and after the writing of the Fourth Gospel. For this reason we will examine the meaning of its words and themes in the context of its Jewish Greco-Roman milieu. Much of our intertextual understanding will be derived from alleged parallels that involve comparisons of similar vocabulary and phrases as well as parallel concepts and images from the Old Testament, the Dead Sea Scrolls, Philo and other relevant writings. Such parallels will help to determine the meaning of a word or expression, the translation of a particular language, determining any direct influences upon the Fourth Gospel, parallel traditions or the influence of its ideas as a creative and inspiring work of later antiquity.

Nietzsche, Metaphor, Religion Tim Murphy, 2001-10-11 Presents a radically anti-foundationalist reading of Nietzsche's philosophy of religion.

Yoga David Carpenter, Ian Whicher, 2003-12-08 The popular perception of yoga in the West remains for the most part that of a physical fitness program largely divorced from its historical and spiritual roots. The essays collected here provide a sense of the historical emergence of the classical system presented by Patanjali, a careful examination of the key elements, overall character and contemporary relevance of that system as found in the Yoga Sutra and a glimpse of some of the tradition's many important ramifications in later Indian religious history.

The Bible According to Christian Nationalists Brian Kaylor, 2025-10-07 Feel like the Bible is being misused? You're not alone. Many people of faith are heartbroken and angry watching scripture distorted to justify political power grabs, exclusion and even violence. Christian Nationalism blurs the line

between faith and politics replacing the Gospel's liberating message with a dangerous ideology that undermines both democracy and discipleship But the Bible doesn't belong to extremists It belongs to God's people In *The Bible According to Christian Nationalists* author and minister Brian Kaylor exposes the seven deceptive ways Christian Nationalists manipulate scripture for their own ends from cherry picking verses for gerrymandering to treating the Bible as a political prop With clarity and courage Kaylor shows how these tactics betray the very heart of the Gospel *Toward a Dialogue of*

Interpretation and Studies on the Teaching of Translation By no means is it difficult to find some interesting and thought provoking papers under each topic For example concerning Translation and Interpreting Theory and Practice To Translate or not to Translate That is the Question On Metaphor Translation in Chinese Political works by Dong Yu explains that in judging whether or not a Chinese metaphor can be translated into English an indispensable step is to decide whether or not the two cultural connotations can be connected But this can easily be influenced by subjective factors Yu has suggested some ways in which subjective factors could be controlled to some extent so that the translator could be more confident in his or her decision He has also suggested three steps The first step is to assume that the cultural connotation of the Chinese metaphor can be connected with that of its English version For example the metaphor in could be translated as rain or shine The second step is to find out whether or not this translated version is acceptable both linguistically and culturally in English The third step is to consider the systematicity of the metaphor in regard with the context in both the source and target texts This involves a process of recontextualization When it comes to Translation and Cross cultural Studies On Translation of the English Guide interpreter from the Perspective of Intercultural Communication by Fengxia Liua and Xiaoning Bi points out that inbound tourism serves as a window through which foreign tourists get to know China so the interaction between the guide interpreters and foreign tourists are the typical activity of cultural communication Foreign language speaking guides are usually regarded as people to people ambassadors or cultural ambassadors who have played an essential role in the international tourist industry Therefore they argue that it is extremely important for tourist guides to cultivate their cross cultural communication awareness enhance their overall communicative competence observe and distinguish east and west differences with multi dimensional perspective transcend cultural barriers and learn to use translation skills Studies on the Teaching of Translation is another interesting topic that has attracted enormous attention such as Business Translation Teaching from the Perspective of Metaphors by Dandan Li which explores application of conceptual metaphor theory in the translation process of business lexicons business discourse and business English culture so as to provide a new perspective in business English pedagogy Another study entitled Cognitive Studies in Translation by Xin Huang analyzes the cognitive studies of translation interpreting processes over the past three decades with focus on the issues examined the findings reached as well as the recent development She explains that cognitive studies of translation process examine the translation competence on line translation behaviors such as how the eye gazes and how the words are typed and the brain activities when doing translation Special interests are paid to the working memory problem solving the executive function and some linguistic relative factors such as text difficulty Over the past thirty years the interest in the field has been gaining considerable momentum and increasing issues have been involved Finally she concludes that with the advancement of technologies and interdisciplinary approaches the black box the previously unforeseeable cognitive activities of how human process translation can be unfolded Considering the importance of integrating theory with practice the proceedings are

therefore compiled in such a way as to be balanced and inclusive in the hope of summarizing current accomplishments as well as providing certain insights for teaching and further research in the field of translation and interpretation studies

Multimodal Metaphor Charles J. Forceville, Eduardo Urios-Aparisi, 2009-09-04 Metaphor studies has over the past 30 years become a discipline in its own right mainly because of the cognitive linguistic claim that metaphors characterize thought not just language But most metaphor scholars hitherto focus exclusively on its purely verbal expressions Since both persuasive and narrative discourses in contemporary society increasingly draw on modalities other than language alone sustained research into a broader range of manifestations of metaphor is imperative This volume is the first book length study to investigate multimodal occurrences of metaphor and is of interest to scholars interested in metaphor as well as in multimodal discourse Each chapter investigates metaphors whose identification and interpretation depend on the co presence of at least two of the following modalities language visuals gestures sound music On the basis of case studies in a variety of discourse genres advertising cartoons films comics conversation music amply represented in photographs logos drawings film stills and musical scores the contributors demonstrate that and how metaphor can occur multimodally providing ideas and methodological angles enabling further theorizing and testing in this rapidly expanding field Covering creative as well as conceptual metaphors and where appropriate evaluating cultural factors governing metaphor interpretation the contributors provide a wealth of material for studying the conceptual and rhetorical force of metaphor in contemporary society

Recent Perspectives on Task-Based Language Learning and Teaching Mohammad Ahmadian, María del Pilar García Mayo, 2017-12-04 The last three decades have witnessed a growth of interest in research on tasks from various perspectives and numerous books and collections of articles have been published focusing on the notion of task and its utility in different contexts Nevertheless what is lacking is a multi faceted examination of tasks from different important perspectives This edited volume with four sections of three chapters each views tasks and Task based Language Teaching TBLT from four distinct but complementary vantage points In the first section all chapters view tasks from a cognitive interactionist angle with each addressing one key facet of either

cognition or interaction or both in different contexts CALL and EFL ESL Section two hinges on the idea that language teaching and learning is perhaps best conceptualized understood and investigated within a complexity theory framework which accounts for the dynamicity and interrelatedness of the variables involved Viewing TBLT from a sociocultural lens is what connects the chapters included in the third section Finally the fourth section views TBLT from pedagogical and curricular vantage points
