**Breaking Ground** Lynda V. Mapes, 2015-09-14 In 2003 a backhoe operator hired by the state of Washington to work on the Port Angeles waterfront discovered what a larger world would soon learn The place chosen to dig a massive dry dock was atop one of the largest and oldest Indian village sites ever found in the region Yet the state continued its project disturbing hundreds of burials and unearthing more than 10 000 artifacts at Tse whit zen village the heart of the long buried homeland of the Klallam people Excitement at the archaeological find of a generation gave way to anguish as tribal members working alongside state construction workers encountered more and more human remains including many intact burials Finally tribal members said the words that stopped the project Enough is enough Soon after Lower Elwha Klallam Tribe chairwoman Frances Charles asked the state to walk away from more than 70 million in public money already spent on the project and find a new site The state in an unprecedented and controversial decision that reverberated around the nation agreed In search of the story behind the story Seattle Times reporter Lynda V Mapes spent more than a year interviewing tribal members archaeologists historians city and state officials and local residents and business leaders Her account begins with the history of Tse whit zen village and the nineteenth and twentieth century impacts of contact forced assimilation and industrialization She then engages all the voices involved in the dry dock controversy to explore how the site was chosen and how the decisions were made first to proceed and then to abandon the project as well as the aftermath and implications of those controversial choices This beautifully crafted and compassionate account illustrated with nearly 100 photographs illuminates the collective amnesia that led to the choice of the Port Angeles construction site You have to know your past in order to build your future Charles says recounting the words of tribal elders *Breaking Ground* takes that teaching to heart demonstrating that the lessons of Tse whit zen are teachings from which we all may benefit *A Capell Family Book*

*Encyclopedia of the American Indian Movement* Bruce E. Johansen, 2013-04-09 A vivid description of the people events and issues that forever changed the lives of Native Americans during the 1960s and 1970s such as the occupation of Alcatraz fishing rights conflicts and individuals such as Clyde Warrior Rising out of more than a century of poverty and pervasive repression stoked by the example of the movement against the Vietnam War and the upheaval among black and Chicano civil rights activists the American Indian Movement shifted the debate over the Indian problem to a new level Many Native peoples also took a stand for fishing rights land rights and formed resistance to coal and uranium mining on tribal land This work tells the story of that movement and provides the first encyclopedic treatment of this subject Providing a vital documentation of a controversial and often surprising period in American Indian history Bruce E Johansen an accomplished scholar and authority on Native American history provides more than descriptions of historic events and careful analysis he also frames what occurred in the American Indian Movement personally and anecdotally drawing from individual stories to illustrate larger trends and to ensure that the material is appealing to high school students university level readers and

general readers alike
