Grateful Nation Ellen Moore,2017-10-26 In today s volunteer military many recruits enlist for the educational benefits yet a significant number of veterans struggle in the classroom and many drop out The difficulties faced by student veterans have been attributed to various factors poor academic preparation PTSD and other postwar ailments and allegedly antimilitary sentiments on college campuses In Grateful Nation Ellen Moore challenges these narratives by tracing the experiences of Iraq and Afghanistan war veterans at two California college campuses Drawing on interviews with dozens of veterans classroom observations and assessments of the work of veteran

support organizations Moore finds that veterans academic struggles result from their military training and combat experience which complicate their ability to function in civilian schools While there is little evidence of antimilitary bias on college campuses Moore demonstrates the ways in which college programs that conflate support for veterans with support for the institutional military lead to suppression of campus debate about the wars discourage antiwar activism and encourage a growing militarization Black Hawk and the Warrior's Path Roger L. Nichols,2017-03-01 Completely updated and expanded Black Hawk and the Warrior s Path is a masterful account of the life of the Sauk warrior and leader and his impact on the history of early America The period between 1760 and 1840 is brought to life through vivid discussion of Native American society and traditions Western frontier expansion and US Native American politics and conflicts Updates include 1 new map 8 new images a revised bibliographic essay incorporating the latest research a timeline and 8 concise reorganized chapters with key terms and study questions Accessibly written by a noted expert in the field students will understand key themes and find meaningful connections among historical events in Native American and 18th century American history

based directly on their experience in the military discussing post traumatic stress disorder traumatic brain injury sexual harassment and assault during their service and the physiology of the war zone experience The challenges faced by reintegrating service men and women are explored in detail and include family issues suicide and substance use disorders A section on services available to returning service members looks at those offered by the Veterans Administration and at the use of animal assisted interventions The book concludes with a section devoted to unique concerns for the practitioner and explores ethical concerns they may face and their own needs as clinicians working with this population
