read the labels first column on this page. Then
you'll be ready to find your own small square
of woods. Using a string, draw a square the size you want in the
yard. Make your square box at least one foot in it.
Measure the box to about four feet (1.2 meters) long
each side—around the size of a four-person elevator.
This square is in a woods where most of the trees

big trees, some young or old trees and a few around the trees in
your square. This way, you will be able to find your
own small square of woods near your house.
The woods near you. Before you leave it, you will
find out to how the woods work. These clues will lead to
many questions and more clues. You will learn the story of
