One Degree of Separation

Since 1996, T-System employees have worked hard to develop powerful solutions that positively impact the effectiveness of emergency care – today supporting more than 30 million patients every year. We achieved this through our deep knowledge of emergency medicine, our relationships with our clients and our relationships with each other.

We believe that coming to work should never be a job, but a place where you can innovate amongst friends and family. This pictorial takes an inside look at a few of the employees that make up T-System to depict how a strong corporate family lends itself to a strong company.
