Manga's Cultural Crossroads Jaqueline Berndt, Bettina Kümmerling-Meibauer, 2014-03-14 Focusing on the art and literary form of manga this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization Through contributions from leading scholars in the fields of comics and Japanese culture it describes manga culture in two ways as a fundamentally hybrid culture comprised of both subcultures and transcultures and as an aesthetic culture which has eluded modernist notions of art originality and authorship The latter is demonstrated in a special focus on the best selling manga franchise NARUTO
