We're Still Here Ya Bastards Roberta Brandes Gratz, 2015-06-09 The aftermath of Hurricane Katrina is one of the darkest chapters in American history The storm caused unprecedented destruction and a toxic combination of government neglect and socioeconomic inequality turned a crisis into a tragedy But among the rubble there is hope We're Still Here Ya Bastards presents an extraordinary panoramic look at New Orleans's revival in the years following the hurricane Award winning journalist Roberta Brandes Gratz shares the stories of people who returned to their homes and have taken the rebuilding of their city into their own hands She shows how the city from the Lower Ninth Ward to the storied French Quarter to Bayou Bienvenue is recovering despite flawed governmental policies that promote disaster capitalism rather than the public good While tracing positive trends Gratz also investigates the most fiercely debated issues and challenges facing the city a violent and corrupt prison system the tragic closing of Charity Hospital the future of public education and the rise of gentrification By telling stories that are often ignored by the mainstream media We're Still Here Ya Bastards shows the strength and resilience of a community that continues to work to rebuild New Orleans and reveals what Katrina couldn't destroy the vibrant culture epic history and unwavering pride of one of the greatest cities in America

In Case of Katrina Ellen Jeffery Blue, 2016-08-04 Since six months after landfall Ellen Blue has taught The Church's Response to Katrina It sidesteps disaster response where clearly the church should be involved What was unclear was how leaders in a connectional denomination like United Methodism should decide which churches to merge or decommission after floods destroyed seventy churches and displaced ninety pastors and no one knew how many members would return Katrina gave the church a chance to re-make itself without deteriorating structures in no longer thriving neighborhoods Yet as members returned to chaos they sought solace Should the church meet needs for Sanctuary and reassurance or use newfound flexibility to seek justice In Case of Katrina examines leadership strategies and the theological convictions that underlay them

during the struggle to decide The larger United Methodist Church controls real estate and the hierarchy had the power to choose Instead they let verdicts spring primarily from congregants and pastors on the ground through a long controversial process Recovery has been entwined with issues of race and class Cooperation among African American and Anglo congregations has birthed vibrant multi racial worship and ministries Yet other prophetic ministry was left undone and it should set the agenda for the next decade

Tempest Liz Skilton, 2019-06-01 Liz Skilton's innovative study tracks the naming of hurricanes over six decades exploring the interplay between naming practice and wider American culture In 1953 the U S Weather Bureau adopted female names to identify hurricanes and other tropical storms Within two years that convention came into question and by 1978 a new system was introduced including alternating male and female names in a pattern that continues today In *Tempest* Hurricane Naming and American Culture Skilton blends gender studies with environmental history to analyze this often controversial tradition Focusing on the Gulf South the nation's hurricane coast Skilton closely examines select storms including Betsy Camille Andrew Katrina and Harvey while referencing dozens of others Through print and online media sources government reports scientific data and ephemera she reveals how language and images portray hurricanes as gendered objects masculine named storms are generally characterized as stronger and more serious while feminine named storms are described as unladylike and in need of taming Further Skilton shows how the hypersexualized rhetoric surrounding Katrina and Sandy and the effeminate depictions of Georges represent evolving methods to define and explain extreme weather events As she chronicles the evolution of gendered storm naming in the United States Skilton delves into many other aspects of hurricane history She describes attempts at scientific control of storms through hurricane seeding during the Cold War arms race of the 1950s and relates how Roxcy Bolton a member of the National Organization for Women led the crusade against feminizing hurricanes from her home in Miami near the National Hurricane Center in the 1970s Skilton also discusses the skyrocketing interest in extreme weather events that accompanied the introduction of 24 hour news coverage of storms as well as the impact of social media networks on Americans tracking and understanding of hurricanes and other disasters The debate over hurricane naming continues as Skilton demonstrates and many Americans question the merit and purpose of the gendered naming system What is clear is that hurricane names matter and that they fundamentally shape our impressions of storms for good and bad

Hurricanes Paul V. Kislow, 2008 A hurricane is a tropical storm with winds that have reached a constant speed of 74 miles per hour or more Hurricane winds blow in a large spiral around a relative calm centre known as the eye The eye is generally 20 to 30 miles wide and the storm may extend outward 400 miles As a hurricane approaches the skies will begin to darken and winds will grow in strength As a hurricane nears land it can bring torrential rains high winds and storm surges A single hurricane can last for more than 2 weeks over open waters

and can run a path across the entire length of the eastern seaboard August and September are peak months during the hurricane season that lasts from 1 June to 30 November This book presents the facts and history of hurricanes Hell and High Water Rebecca Theim, 2013-10-11 ERIC HOFFER BOOK AWARD SHORTLIST FINALIST BUSINESS CATEGORY NATIONAL FEDERATION OF PRESS WOMEN REGIONAL FINALIST GENERAL NONFICTION INDEPENDENT PUBLISHER BOOK AWARDS GOLD MEDAL CURRENT EVENTS Near midnight on May 23 2012 the New York Times broke the story that Advance Publications the New York based owner of about three dozen US newspapers would use its 175 year old New Orleans Times Picayune as the testing ground for a risky experiment The Picayune which won fierce local devotion international acclaim and two Pulitzer Prizes for its heroic coverage of the aftermath of 2005's Hurricane Katrina would become a three day per week publication and shift its focus to its much derided nola.com Web site leaving New Orleans as the largest US city without a daily newspaper The profitable newspaper with the country's highest readership penetration in a city its size then proceeded to purge its veteran newsroom antagonize much of the city and state attract negative national and international attention and jeopardize its vaunted reputation all in an effort to create a new blueprint for the profitable operation of American newspapers in today's increasingly digital world The Times Picayune wasn't the first or last Advance Publications newspaper to undergo this transformation The company began implementing this plan at many of its newspapers in 2009 despite waves of protest However the Times Picayune was its foremost guinea pig In a desperate attempt to recapture public favor Advance implemented daily newsstand only editions of the Times Picayune to supplement its scant coverage Author Rebecca Theim's deft treatment of the impact on employees and region the enigmatic owners of Advance Publications and Advance Publication's ambitious business model is a revelatory exposé of the swiftly changing face of journalism

Trauma Journalism Mark H. Massé, 2011-10-06 The role of journalists in covering trauma and tragedy isn't new Witnessing acts of violence destruction and terror has long been the professional responsibility of countless print and broadcast reporters and photographers But what is new is a growing awareness of the emotional consequences of such coverage on the victims their families and loved ones their communities and on the journalists whose job it is to tell these stories Trauma Journalism personalizes this movement with in depth profiles of reporters researchers and trauma experts engaged in an international effort to transform how the media work under the most difficult of conditions Through biographical sketches concerning several significant traumatic events Oklahoma City bombing Columbine school tragedy 9 11 Iraq War the South Asian tsunami Hurricane Katrina students and working reporters will gain insights into the critical components of contemporary journalism practices affecting news judgment news gathering techniques as well as legal and ethical issues Trauma Journalism calls for the creation through ongoing education of a culture of caring among journalists worldwide

Walking to New Orleans Robert R. N. Ross, Deanne E. B. Ross, 2008-09-22 Two and a half years after the devastation of Hurricanes Katrina and Rita New Orleans and south Louisiana continue to struggle in an unsettled gumbo of

environmental social and rebuilding chaos Citizens await the fruition of four successive recovery and reconstruction planning processes and the realization of essential infrastructure repairs Repopulation in Orleans Parish has slowed considerably the parish remains at best two thirds of its former size thousands of former residents who wish to return face barriers of many kinds Heroic efforts at rebuilding have occurred through the efforts of individual neighborhood associations and voluntary associations who have attempted to address serious losses in affordable housing and health care services Walking to New Orleans traces how a dominant but paradoxical model of the relation between the human and natural worlds in Western culture has informed many environmental and engineering dilemmas and has contributed to the history of social inequities and injustice that anteceded the disasters of the hurricanes and subsequent flooding It proposes a model for collaborative recovery that links principles of ethics and engineering in which citizens become active ongoing participants in the process of the reconstruction and redesign of their unique locus of habitation Equally important it gives voice to the citizens and associations who are desperately working to rebuild their homes and lives both in urban New Orleans and in the villages of coastal Louisiana

The Inevitable City Scott Cowen,Betsy Seifter,2014-06-10 The incredible story of how New Orleans came back after Hurricane Katrina stronger than before and how its success can be reproduced from the man who spearheaded the efforts

Television and Precarity Jasmin Humburg,2020-03-06 Jasmin Humburg provides evidence of naturalist narrative strategies tropes and character variations in six contemporary American television series The Wire Trem Shameless Ozark Orange is the New Black and 2 Broke Girls The author investigates how poverty is negotiated through classic literary naturalism and contemporary televisual articulations and how the latter may have been influenced by the former in the age of the Great Recession By connecting literary studies television studies and concepts of social mobility this project contributes to the field of new poverty studies

Popular Memories Ekaterina V. Haskins,2015-03-11 A critical exploration of the ways public participation has transformed commemoration and civic engagement in the United States In the last three decades ordinary Americans launched numerous grassroots commemorations and official historical institutions became more open to popular participation In this first book length study of participatory memory practices Ekaterina V Haskins critically examines this trend by asking how and with what consequences participatory forms of commemoration have reshaped the rhetoric of democratic citizenship Approaching commemorations as both representations of civic identity and politically consequential sites of stranger interaction Popular Memories investigates four distinct examples of participatory commemoration the United States Postal Service s Celebrate the Century stamp and education program the September 11 Digital Archive the first post Katrina Carnival in New Orleans and a traveling memorial to the human cost of the Iraq War Despite differences in sponsorship genre historical scope and political purpose all of these commemorations relied on voluntary participation of ordinary citizens in selecting producing or performing interpretations of distant or recent historical events These collectively produced interpretations or popular memories in turn prompted interactions between

people inviting them to celebrate to mourn or to bear witness The book's comparison of the four case studies suggests that popular memories make for stronger or weaker sites of civic engagement depending on whether or not they allow for public affirmation of the individual citizen's contribution and for experiencing alternative identities and perspectives By systematically accounting for grassroots memory practices consumerism tourism and rituals of popular identity Haskins's study enriches our understanding of contemporary memory culture and citizenship *New Orleans For Dummies* Julia Kamysz Lane, 2007-04-16 Whether you want to go to New Orleans for its history or the revelry the incredible unique cuisine or the music and club scene the risqu' aura of Bourbon Street or the ritzy lushness of the Garden District this is your fun and easy guide to exploring and enjoying The Big Easy New Orleans is indeed open for business more than 1000 restaurants and more than half of the areas hotels are welcoming visitors Written by Julia Kamysz Lane a resident and fan of the Crescent City New Orleans For Dummies 4th Edition helps you make your most of your time with A full chapter on Hurricane Katrina and its aftermath plus sections called Assessing Katrina's Effect at the beginning of relevant chapters and the post hurricane status for every listing Dining info on where to try a variety of local flavors such as Cajun and Creole cuisine at Emeril's Antoine's or Arnaud's a romantic dinner at Court of Two Sisters a greasy roast beef po boy from Elizabeth's a plateful of shucked oysters from Acme Oyster House or beignets tasty fried doughnuts to start your day at Caf du Monde Advice on shopping for everything from exquisite antiques and fine art to pralines and T-shirts A rundown of the city's varied and exciting cultural scene including the best bars and clubs in the French Quarter and beyond Info on cultural and historic attractions including the Canal Streetcar the New Orleans Museum of Art the mansions on St Charles Avenue the courtyards in the French Quarter the antebellum plantation houses in the Garden District and more An overview of the vibrant eclectic music scene including where to catch live jazz R B Cajun or zydeco vibes or modern day brass bands getting funky Four suggested itineraries plus three day trips Like every For Dummies travel guide New Orleans For Dummies 4th Edition includes Down to earth trip planning advice What you shouldn't miss and what you can skip The best hotels and restaurants for every budget Handy Post-it Flags to mark your favorite pages The jazz is jammin the jasmine is blooming and the jambalaya is simmering so get this book and get packing The infinite variety and captivating mystique of New Orleans await you [The Booklover's Guide to New Orleans](#) Susan Larson, 2013-09-05 The literary tradition of New Orleans spans centuries and touches every genre its living heritage winds through storied neighborhoods and is celebrated at numerous festivals across the city For booklovers a visit to the Big Easy isn't complete without whiling away the hours in an antiquarian bookstore in the French Quarter or stepping out on a literary walking tour Perhaps only among the oak lined avenues Creole town houses and famed hotels of New Orleans can the lust of A Streetcar Named Desire the zaniness of A Confederacy of Dunces the chill of Interview with the Vampire and the heartbreak of Walker Percy's Moviegoer begin to resonate Susan Larson's revised and updated edition of The Booklover's Guide to New Orleans not only explores the legacy of Tennessee
