Stackhouse,2011-10 What should be the Christian's attitude toward society When so much of our contemporary culture is at odds with Christian beliefs and mores it may seem that serious Christians now have only two choices transform society completely according to

Christian values or retreat into the cloister of sectarian fellowship In *Making the Best of It* John Stackhouse offers a more balanced and fruitful alternative to these extremes He argues that rather than trying to root up the weeds in the cultural field or trying to shun them Christians should practice persistence in gardening God's world and building toward the New Jerusalem

*The Great Open Dance* Jon Paul Sydnor, 2024-04-24 *The Great Open Dance* offers a progressive Christian theology that endorses contemporary ideals environmental protection economic justice racial reconciliation interreligious peace gender equality and LGBTQ celebration Just as importantly this book provides a theology of progress an interpretation of Christian faith as ever changing and ever advancing into God's imagination Faith demands change because Jesus of Nazareth started a movement not a tradition He preached about a new world the Kingdom of God and invited his followers to work toward the divine vision of universal flourishing This vision includes all and excludes none Since we have not yet achieved the world that Jesus describes we must continue to progress The energizing impulse of this progress is the Trinity Abba Jesus and Sophia three persons united by love into one perfect community God is fundamentally relational and humankind made in the image of God is relational as a result We are inextricably entwined with one another sharing a common purpose and a common destiny In this vision we find abundant life by practicing agape the universal unconditional love that Abba extends Jesus

Gutjahr,2017 Early Americans have long been considered A People of the Book Because the nickname was coined primarily to invoke close associations between Americans and the Bible it is easy to overlook the central fact that it was a book not a geographic location a monarch or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture Few books can lay claim to such powers of civilization altering influence Among those which can are sacred books and for Americans principal among such books stands the Bible This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation s politics and foreign policy This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible s role in American cultural formation     *The Extractor; or Universal repertorium of literature, science, and arts. Edridge,2012-06 A new and inspiring view of creation and the Flood After the Beginning offers compelling insight about God s purpose for an eternal loving relationship with mankind that was made in His image This theme is revealed in Genesis with the creation of Adam and Eve with the animals named by Adam and with the animals that were saved on the ark From creation through the Flood Dr Edridge concludes that the creatures described in Genesis had

emotional capability such as mammals and birds Further consideration of species that should be included in the creation narrative leads to agreement between the biblical sequence of creation and the scientific chronology of the fossil record and the early stages of the Earth s development Dr Edridge examines different flood models to determine if they are consistent with biblical parameters and scientific scrutiny Based on documented flood records and geological events he proposes a new catastrophic Flood Model that meets both qualitative and quantitative requirements for the most likely flooded area the cradle of civilization This model is unique providing a viable mechanism that caused the Flood to subside but which agrees with the biblical description     Titan James Hogg,1846
