The Book of the Fay Queen Carl Abrahams, 2012-07-14 This is a book of fairy tales though not a book for children as some tales are quite grim It is a book of short stories set amid a strange world of fairies banshees giants and many creatures of myth There are fewer moral lessons than in many more recent fairy stories and more a tone of older folklore All the tales within have some connection with a spirit known only as the fay queen or the Lady Who or what she is is never made clear but she is undoubtedly a creature of good nature
