## **One America Political Leadership National Identity And The Dilemmas Of Diversity:**

*One America?* Stanley Allen Renshon, 2001 Presented by Renshon political science City U of New York 12 contributions examine identity politics in the United States from a number of ideological perspectives exploring what it means to be an American and calling for various courses of action Some argue that the problem can be found in the inability of our political leaders to show authenticity and courage in tackling racial differences Other articles suggest that affirmative action school integration and other initiatives that have hitherto been based on race should instead be based on class in order to broaden public acceptance and address real inequalities Still other viewpoints argue that increased immigration is a divisive problem that the Civil Rights Act of 1964 paved the way for a dangerous emphasis on multiculturalism and they criticize Bill Clinton's initiative on race as empty scripted public relations events c Book News Inc **One America?** Stanley A.

Renshon, 2001-07-31 With enormous numbers of new immigrants America is becoming dramatically more diverse racially culturally and ethnically As a result the United States faces questions that have profound consequences for its future What does it mean to be an American Is a new American identity developing At the same time the coherence of national culture has been challenged by the expansion of and attacks on individual and group rights and by political leaders who prefer to finesse rather than engage cultural controversies Many of the ideals on which the country was founded are under intense often angry debate and the historic tension between individuality and community has never been felt so keenly In *One America* distinguished contributors discuss the role of national leadership especially the presidency at a time when a fragmented and dysfunctional national identity has become a real possibility Holding political views that encompass the thoughtful left and right of center they address fundamental issues such as affirmative action presidential engagement in questions of race dual citizenship interracial relationships and English as the basic language This book is the first examination of the role of national political leaders in maintaining or dissipating America's national identity It will be vital reading for political scientists historians policymakers students and anyone concerned with the future of American politics and society The

Prime-Time Presidency Shawn J. Parry-Giles, 2010-10-01 Contrasting strong women and multiculturalism with portrayals of a heroic white male leading the nation into battle *The Prime Time Presidency* explores the NBC drama *The West Wing* paying particular attention to its role in promoting cultural meaning about the presidency and U S nationalism Based in a careful detailed analysis of the first term of *The West Wing*'s President Josiah Bartlet this criticism highlights the ways the text negotiates powerful tensions and complex ambiguities at the base of U S national identity particularly the role of gender race and militarism in the construction of U S nationalism Unlike scattered and disparate collections of essays Trevor Parry Giles and Shawn J Parry Giles offer a sustained ideologically driven criticism of *The West Wing* *The Prime time Presidency* presents a detailed critique of the program rooted in presidential history an appreciation of television's power as a source of political meaning and television's contribution to the articulation of U S national identity Talking about Race Katherine

Cramer Walsh,2008-09-15 It is a perennial question how should Americans deal with racial and ethnic diversity More than 400 communities across the country have attempted to answer it by organizing discussions among diverse volunteers in an attempt to improve race relations In Talking about Race Katherine Cramer Walsh takes an eye opening look at this strategy to reveal the reasons behind the method and the effects it has in the cities and towns that undertake it With extensive observations of community dialogues interviews with the discussants and sophisticated analysis of national data Walsh shows that while meeting organizers usually aim to establish common ground participants tend to leave their discussions with a heightened awareness of differences in perspective and experience Drawing readers into these intense conversations between ordinary Americans working to deal with diversity and figure out the meaning of citizenship in our society she challenges many preconceptions about intergroup relations and organized public talk Finally disputing the conventional wisdom that unity is the only way forward Walsh prescribes a practical politics of difference that compels us to reassess the place of face to face discussion in civic life and the critical role of conflict in deliberative democracy [The 50% American](#)

Stanley Allen Renshon,2005 Presents an examination of American immigration policy and how it affects national identity exploring the issues related to United States policy to allow its citizens one or more foreign citizenships and its ramifications on patriotism and civic process **American Society Today** Edward Ashbee,2002 Table of contents **Encyclopedia of Government and Politics** Mary Hawkesworth,Maurice Kogan,2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **Encyclopedia of Government and Politics** M. E. Hawkesworth,Maurice Kogan,2004 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With

its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers      **Justice beyond 'Just Us'** Gregory W. Streich,2016-04-22

Notions of justice and community in the United States are increasingly challenged by trends like immigration multiculturalism and economic inequality as well as historical legacies like Jim Crow era racial segregation These dynamics continually re shape the communities in which people live whether by generating new forms of interdependency and inequality creating new social cleavages or exacerbating existing ones or generating new spaces in which cross boundary contact conflict or cooperation is possible Revealing the ways in which notions of justice and community overlap in American politics and public discourse through concrete political questions which emerge when considering dimensions of time place and difference Gregory W Streich offers a fresh re examination of the normative ideas of justice and community He encourages Americans to move from a view of justice that applies only to people who are like us to a view of justice that applies to people beyond just us      *Noncitizen Voting and American Democracy* Stanley Allen Renshon,2009 Continuing large scale migration to the United States raises the question of how best to integrate new immigrants into the American national community Traditionally one successful answer has been to encourage immigrants to learn our language culture history and civic traditions New immigrants would then be invited become citizens and welcomed as full members of the community However a concerted effort is underway to gain acceptance for and implement the idea that the United States should allow new immigrants to vote without becoming citizens It is mounted by an alliance that brings together progressive academics law professors local and state political leaders and community activists all working to decouple voting from American citizenship Their effort show signs of success but is it really in America s best interests to allow new immigrants to have the vote Their proposals have been much advocated but little analyzed Neither a polemic nor a whitewash Stanley A Renshon provides a careful analysis of the arguments put forward by advocates of this position on the basis of fairness increasing democracy civic learning and moral necessity and asks Do they really help immigrants become Americans

*Democratic Policymaking* Charles Barrilleaux,Christopher Reenock,Mark Souva,2016-12-07 This introduction applies analytic models to policymaking challenges equipping students with tools to evaluate core policymaking dilemmas Students are introduced to the approaches of game theory social choice theory research design and causal inference Key terms along with current research are highlighted to build an understanding of public policy study Exercises and thought questions enable students to develop skills to assess public policy dilemmas The analytically rigorous style of the text is accessible and avoids lengthy descriptions Supplementary resources for instructors include extensive notes ancillaries and online resources including a test bank quizzes and editable lecture slides for all chapters that can be modified to fit particular courses This textbook is suitable for introductory public policy and public administration courses at both undergraduate and postgraduate level      **The Politics of Identity** Erin E. O'Brien,2008-07-08 Conventional wisdom believes that solidarity among the

working poor is rare in the United States and identity politics shoulders a large portion of the blame The Politics of Identity offers a fresh take on solidarity building and identity among America s working poor by placing workers voices center stage through the use of fieldwork and in depth interviews The book provides the first empirical assessment of long standing theoretical debates over the effect of identity politics for developing additional solidarities that is politically relevant theoretically rich and highly readable

**Political Tone** Roderick P. Hart, Jay P. Childers, Colene J. Lind, 2013-05-14 It s not what you say but how you say it Solving problems with words is the essence of politics and finding the right words for the moment can make or break a politician s career Yet very little has been said in political science about the elusive element of tone In Political Tone Roderick P Hart Jay P Childers and Colene J Lind analyze a range of texts from speeches and debates to advertising and print and broadcast campaign coverage using a sophisticated computer program DICTION that parses their content for semantic features like realism commonality and certainty as well as references to religion party or patriotic terms Beginning with a look at how societal forces like diversity and modernity manifest themselves as political tones in the contexts of particular leaders and events the authors proceed to consider how individual leaders have used tone to convey their messages How did Bill Clinton s clever dexterity help him recover from the Monica Lewinsky scandal How did Barack Obama draw on his experience as a talented community activist to overcome his inexperience as a national leader And how does Sarah Palin s wandering tone indicate that she trusts her listeners and is open to their ideas By focusing not on the substance of political arguments but on how they were phrased Political Tone provides powerful and unexpected insights into American politics

Reinventing World War II Barbara A. Biesecker, 2024-08-09 By the 1970s World War II had all but disappeared from US popular culture But beginning in the mid eighties it reemerged with a vengeance and for nearly fifteen years World War II was ubiquitous across US popular and political culture In this book Barbara A Biesecker explores the prestige and rhetorical power of the Good War revealing how it was retooled to restore a new kind of social equilibrium to the United States Biesecker analyzes prominent cases of World War II remembrance including the canceled exhibit of the Enola Gay at the National Air and Space Museum in 1995 and its replacement Steven Spielberg s Saving Private Ryan Tom Brokaw s The Greatest Generation and the United States Holocaust Memorial Museum Situating these popular memory texts within the culture and history wars of the day and the broader framework of US political and economic life Biesecker argues that with the notable exception of the Holocaust Memorial Museum these reinventions of the Good War worked rhetorically to restore a strong sense of national identity and belonging fitted to the neoliberal nationalist agenda By tracing the links between the popular retooling of World War II and the national state fantasy and by putting the lessons of Foucault Derrida Lacan and their successors to work for a rhetorical political analysis of the present Biesecker not only explains the emergence and strength of the MAGA movement but also calls attention to the power of public memory to shape and contest ethnonational identity today This book will interest rhetoricians and historians as well as students and scholars in the fields

of US politics and communication studies      *Who are We?* Samuel P. Huntington, 2004 Blockade is the story of a long running trade battle at sea between Britain and Germany during the First World War Each country fought for survival but this book focuses on the story of the Northern Patrol and the 10th Cruiser Squadron The Royal Navy's role during World War I denying Germany access to the sea trade and vital resources was crucial to helping Britain win the war on the Western Front The Northern Blockade located across the inhospitable waters between Iceland and Scotland was to bring the German economy to its knees and destroy her home front morale Likewise the Royal Navy's success in negating Germany's attacks on British commerce prevented much suffering in Britain Steve Dunn vividly describes the final destruction of German surface vessel commerce warfare He examines the American reaction to the British naval blockade and to Germany's war on trade as well as Germany's treatment of American sailors taken prisoner Dunn also considers changes in strategy employed by both sides Blockade brings to life the experiences of those who manned the blockade and creates a vivid picture of the dangers of duty in this highly significant but overlooked aspect of World War I      The President's Words Michael Nelson, Russell L. Riley, 2010-10-25 When Ronald Reagan invoked a shining city on a hill or George H W Bush a thousand points of light their words were engraved on the public's consciousness as signatures to their personal beliefs and a catalysts for political action Such iconic phrases in presidential speeches are often the creation of presidential speechwriters who are entrusted with framing a message consistent with each administration's broad goals and reflecting each president's personality and rhetorical skills This book takes a closer look at presidential speeches over the course of six administrations Editors Michael Nelson and Russell Riley have brought together an outstanding team of academics and professional writers including nine former speechwriters who worked for every president from Nixon to Clinton to examine how the politics and crafting of presidential rhetoric serve the various roles of the presidency They consider four types of speeches convention acceptance speeches inaugural addresses state of the union addresses and crisis and other landmark speeches that often rise out of unpredictable circumstances Together these scholars and writers enable readers to sort out the idiosyncratic from the institutional while gaining insider perspectives on the operating style and rhetorical manner of each of the six presidents The book is rich in character sketches such as Jimmy Carter's attempt to tie his understanding of original sin to the practice of American politics and brimming with insights into the internal dynamics of the White House including tales of internecine bloodletting under Ronald Reagan Most significant these discussions help us better understand the contemporary presidency by revealing the enduring and evolving features of the institution underscoring how the operating style and rhetorical manner of each president shapes the speechwriting process in the service of his broader policymaking goals These essays show not only how speechmaking has become a major presidential activity but also how speechwriters have become important political actors in their own right They offer students and observers of the political scene a rare opportunity to consider the crafting of those utterances before weighing their effects      America's Second Civil War Stanley A.

Renshon,2017-12-02 America has always taken a coherent national identity for granted In recent decades that assumption has been challenged Individual and group rights have expanded eliciting acerbic debate about the legitimacy and limits of claims National political leaders have preferred to finesse rather engage these controversies At the same time large numbers of new immigrants have dramatically made the United States more racially ethnically and culturally diverse As a result this country faces critical political and cultural questions What does it mean to be an American What if anything binds our country and citizens together Is a new American identity developing and if so what is it Can political leaders help us answer these questions For the second time in the history of the United States another civil war looms Tthe new danger lies in conflicts among people of different racial cultural and ethnic heritages and between those who view themselves as culturally politically and economically disadvantaged versus those whom they see as privileged Unlike the first Civil War the antagonists cannot take refuge in their family or their religious social cultural or political organizations These are the precisely the places where the war is being fought At issue is whether it is possible or desirable to preserve the strengths of a common heritage Some quarters insist that our past has resulted in a culture only worth tearing down to build over rather than one worth keeping and building upon We are in conflict over the viability of American culture and identity itself This volume is organized into a series of intellectually grounded but provocative chapters on political leadership the 2000 presidential campaign Immigration affirmative action and other contemporary social and political issues Renshon uses the perspective of political psychology to help us to see old issues in new ways and new issues in different ways His critical questi

**Visual Rhetoric** Lester C. Olson, Cara A. Finnegan, Diane S. Hope, 2008-03-20 Visual Rhetoric A Reader in Communication and American Culture is the first collection of its kind essays rich in concepts from the diverse history of rhetoric are featured in their relationship to visual experiences in one or another medium or various media Images are symbols with meaning how these images are seen and the messages they communicate are the study of visual rhetoric Today s society is increasingly inundated with visual images symbols and messages The seminal essays in this collection reveal the workings the research and the effects of how what we see establishes and influences our perceptions our actions and our communication

**Prodigal Nation** Andrew R. Murphy, 2011-01-05 America s supposed moral decline from an imagined golden age and the threat of divine punishment for the sin of straying from the path of righteousness have been consistent themes in its political and religious rhetoric In Prodigal Nation Andrew Murphy investigates the jeremiad s historical roots and probes the ways in which it continues to illuminate themes and tensions in American social and political life *Power Of Speech* James Curran, 2014-07-18 The subjects of this book are five fascinating prime ministers Gough Whitlam Malcolm Fraser Bob Hawke Paul Keating and John Howard and how they view Australia Until the 1960s our nation believed itself to be British Then during a decade of momentous change this concept of our national identity collapsed It was buried by the forces of cultural and political renewal by disturbing and exciting developments in Asia and by a dawning recognition that

the global era of colonial power was over The result was a crisis of national meaning reflected in public debates about multiculturalism Australia s relationships with its Asian neighbours the dispossession of indigenous Australians and the nation s involvement in war In recent years our political leaders have played a conspicuous role in the controversy In *The Power of Speech* James Curran explores the end of the idea of British Australia and how successive prime ministers have attempted to assert personal and often competing visions of Australian nationalism in its place This highly original study of prime ministerial rhetoric exposes the sources of our most powerful leaders beliefs about Australia
