Dolores Flamiano, 2017-07-05 The tension between social reform photography and photojournalism is examined through this study of the life and work of German gr ansel Mieth 1909 1998 who made an unlikely journey from migrant farm worker to Life photographer She was the second woman in that role after Margaret Bourke White Unlike her colleagues Mieth was a working class reformer with a deep disdain for Life s conservatism and commercialism In fact her work often subverted Life s typical representations of women workers and minorities Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics birth control vivisection labor unions and Japanese American internment during the Second World War Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s but this role became untenable in Cold War America when her career was cut short Today Mieth s life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth century photojournalism *Women Workers and Race in LIFE Magazine* draws upon a rich array of primary sources

Specters of War Elisabeth Bronfen,2012-10-03 Specters of War looks at the way war has been brought to the screen in various genres and at different historical moments throughout the twentieth century and into the twenty first Elisabeth Bronfen asserts that Hollywood has emerged as a place where national narratives are created and circulated so that audiences can engage with fantasies ideologies and anxieties that take hold at a given time only to change with the political climate Such cultural reflection is particularly poignant when it deals with America s traumatic history of war The nation has no direct access to war as a horrific experience of carnage and human destruction we understand our relation to it through images and narratives that transmit and interpret it for us Bronfen does not discuss actual conflicts but the films by which we have come to know and remember them including All Quiet on the Western Front The Best Years of Our Lives Miracle at St Anna The Deer Hunter and Flags of Our Fathers Battles and campaigns the home front and women who wait narratives war correspondents and court martials are also explored as instruments of cultural memory Bronfen argues that we are haunted by past wars and by cinematic re conceptualizations of them and reveals a national iconography of redemptive violence from which we seem unable to escape **Destructive Sublime** Tanine Allison,2018-06-25 The American popular imagination has long portrayed World War II as the good war fought by the greatest generation for the sake of freedom and democracy Yet combat films and other war media complicate this conventional view by indulging in explosive displays of spectacular violence Combat sequences Tanine Allison argues construct a counter narrative of World War II by reminding viewers of the war s harsh brutality Destructive Sublime traces a new aesthetic history of the World War II combat genre by looking back at it through the lens of contemporary video games like Call of Duty Allison locates some of video games glorification of violence disruptive audiovisual style and bodily sensation in even the most canonical and seemingly conservative films of the genre In a series of case studies spanning more than seventy years from wartime documentaries like The Battle of San Pietro to fictional reenactments like The Longest Day and Saving Private Ryan to combat video games like Medal of Honor this book reveals how the genre s aesthetic forms reflect and influence how American culture conceives of war nation and representation itself
