New Age Textures Vincenzo Sguera, 2006 The New Age style which began in the 90 s reached its apex I think at the end of the 20th century Hopes for a new millennium inspired by Nature and Man as fundamental points of a new philosophy have permeated not only music but also figurative art of the end of the millennium As a designer I posed myself the problem of how to represent this world full of repetitive patterns that cover objects landscapes animals living structures such as wood leaves or clouds textures on textures to infinity can be discovered everywhere Every living thing is a source of inspiration and I have decided not to use colour but the images of nature themselves as if I were squeezing them from tubes of paint pieces or fragments of nature remounted also in an abstract and informal manner to perceive the essence beyond their scheme and function The accompanying DVD reproduces all the designs in natural format indicating the full development of the module

and the textures are already set to be repeated to infinity in perfect alignment Images ready for commercial use suitable for the world of textiles backgrounds for packaging Internet sites or the layout of magazines and catalogues This is an infinite flow of ideas directly from Nature AUTHOR Vincenzo Sguera the former chief designer for Benetton has been at the cutting edge of the art and design world for more than 30 years ILLUSTRATIONS 423 colour *Kinetic Art Textures* Vincenzo Sguera,2014-01-01 120 Patterns in Kinetic Art Style saved in 5 different formats 600 files that can be used with a range of existing graphics software *Ultra Pop Textures* ,2011 *Optical Textures* Vincenzo Sguera,2010-04-16 CD ROM contains vector files suitable for Windows and Macintosh **New Age Textures** Vincenzo Sguera,2003 This book develops ideas inspired by the New Age style where nature plays a large but not a total part 423 textures in HI RES ready for production and free use contained on 3 free CD s enclosed in the book It reproduces all the designs at 100% size and the textures are already set to be repeated to infinity in perfect alignment *Optical Textures* Vincenzo Sguera,2005
