Meridiana 91: Immigrazione Autori Vari, 2018-05-29T00:00:00+02:00 Il tema dell immigrazione entrato negli ultimi anni prepotentemente all ordine del giorno della discussione politica nazionale e internazionale Gli Stati nazionali i governi le organizzazioni umanitarie le istituzioni internazionali gli attori economici la societ civile si confrontano ogni giorno con il nodo della politica migratoria declinata di volta in volta a seconda delle rispettive esigenze dei rapporti di forza degli equilibri degli assetti che le classi dirigenti scelgono di privilegiare In Italia il dibattito pubblico dominato dalla cosiddetta emergenza sbarchi con tutto il corollario di provvedimenti di urgenza di circuiti assistenziali di rigurgiti razzisti che sono ampiamente documentabili quantomeno per il periodo che corre dalle primavere arabe del 2011 fino a oggi La ricerca scientifica fatica a individuare uno spazio di riflessione e di sperimentazione capace di affinare lo sguardo e di ragionare sulla lunga durata dei fenomeni Questo numero della rivista affronta il tema dell immigrazione in una prospettiva di lungo periodo con una particolare attenzione alla sua dimensione politica L ottica adottata consente di cogliere aspetti

rilevanti del rapporto tra la società italiana e le istituzioni pubbliche. Conoscere l'immigrazione aiuta infatti a disvelare il modo con cui si intrecciano le dinamiche nazionali e quelle internazionali. Partendo dal processo di integrazione europea, aiuta a comprendere le trasformazioni nel mercato del lavoro, permette di ricostruire i punti di forza e di debolezza dell'azione delle istituzioni sul territorio, fa capire meglio l'origine e lo sviluppo dei conflitti sociali, porta a riflettere sulla centralità del terzo settore e la crisi del welfare, solo per citare alcune delle questioni che emergono dalle ricerche proposte.

Dal punto di vista scientifico, l'immigrazione rappresenta un terreno di incontro formidabile tra gli studiosi di storia e di scienze sociali. In questo numero si intende rafforzare e rilanciare questo incontro. Le ricerche presentate intendono soffermarsi su un periodo storico che va dagli anni sessanta a oggi. Viene ricostruito il lungo percorso di politiche che lo Stato italiano ha adottato per governare l'immigrazione straniera, dalla prima circolare del Ministero del lavoro risalente al 1963 fino ai provvedimenti emanati dal governo Gentiloni nel 2017 con un contributo dedicato interamente al passaggio al ministero dell'Interno di Marco Minniti. Vengono esaminati nel dettaglio i primi flussi migratori numericamente significativi che si collocano negli anni sessanta-settanta, quali quello delle lavoratrici impegnate nel settore domestico e quello degli operai provenienti dalla Jugoslavia e diretti in Friuli Venezia Giulia. Viene proposto un focus specifico sulla legge Turco-Napolitano del 1998 e in particolare sulla sua connessione con il processo di integrazione europea. Viene sintetizzata la storia dell'intervento sindacale verso l'immigrazione dagli anni settanta ai primi anni novanta. Viene analizzata la trasformazione di uno dei più importanti partiti politici italiani, la Lega, che si caratterizza per il passaggio da formazione di stampo antimeridionale a partito ostile all'immigrazione straniera. Emerge un quadro complesso e articolato che ci permette di conoscere più a fondo un tema troppo spesso schiacciato sulle contingenze del presente.

Italian Dumplings and Chinese Pizzas Gaoheng Zhang, 2025-10-07

Designs a novel analytical framework to approach transcultural food mobilities, a culinary phenomenon that has been with us for decades as a result of colonialism and globalization. Why is it surprising for some of us to read the pairing of Chinese with pizzas and Italian with dumplings, such as proposed in the book's title? After all, in some regions of the two countries, Italians eat frequently dumplings and Chinese frequently make baked, steamed or fried flatbread with toppings or fillings. Furthermore, when dumplings are made in Italy by Chinese migrants or Chinese Italians, or when pizzas are made in China by Italian migrants, Chinese Italians, or Chinese without apparent ties with Italy, are these culinary products Chinese, Italian, Chinese-Italian, or something else? Why do we need to care for such labeling dilemmas? This book shows how China-Italy food mobilities relayed in popular culture helped forge Chinese and Italians' socioeconomic identities in recent decades by fundamentally shaping contemporary Chinese and Italian consumer cultures. This book addresses China-Italy food cultures against the backdrops of two epoch-making socioeconomic processes. During the 1980s, Chinese cuisine became the first non-European food widely available in Italy thanks to the widespread presence of Chinese eateries. Only American fast food, which established itself in Italy around the same time, enjoyed comparable popularity as a destination for Italian culinary tourism.

Meanwhile in the early 1990s together with American hamburgers and fried chicken the American food chain Pizza Hut s pizzas and spaghetti were the first non Asian foods that post Mao Chinese customers recognized as Western The book proposes a critical framework that analyzes transcultural food mobilities by seriously assessing the confluence of diverse mobilities and their impact on food cultures Ultimately the study shows that a sophisticated interpretation of transcultural food mobilities can help address alterity and build understanding in a world of increasing political and cultural polarization

Financing Roma Inclusion with European Structural Funds Joanna Kostka, 2018-11-19 This book provides an analysis of the highly politicized field of Roma inclusion and addresses the controversies surrounding the effectiveness of funding initiatives derived from European Cohesion Policy It confronts the widely held notion that European financial transfers

Structural Funds are highly suitable instruments to address the systemic causes of poverty and to facilitate changes towards substantive equality for Europe's largest ethnic minority. Shedding critical light on the Structural Funds programme it offers an innovative approach to thinking about the value of European funding schemes and efficacy of national Roma inclusion strategies. Multidisciplinary in approach it draws on rich interview material and literature from fields including policy implementation, new public governance, equality studies and political representation. Financing Roma Inclusion with European Structural Funds examines the implementation of European funding in Spain and Slovakia, two countries with contrasting policy outputs and offers a nuanced picture of the way European Cohesion Policy interacts with intricacies of domestic policy making. It thus sheds light on the key challenges facing Roma inclusion strategies in contemporary Europe and will be of interest for scholars interested in European studies, equality policy, new public governance and minority studies.

Displacement Among Sri Lankan Tamil Migrants Diotima Chattoraj, 2021-02-14. This book focuses on the concept of home or place of origin expressed in Tamil as *Ur* and its various dimensions in turn related to issues of belonging, attachment, detachment and commonality among the war-affected population in the post-war era of Sri Lanka. Little research has been undertaken on displacement and forced migration since the end of the war and so this book provides new insight into the intersections between externally and internally displaced people and notions of home in relation to gender, age, caste and class. It excavates the roots of the problem of not being able to return due to combinations of uncertainty, unemployment and the loss of people and property. The author shows that notions of home vary considerably depending on multiple variables and this is particularly pronounced between the different generations. The book also confronts how the migration from Sri Lanka over the border to India has brought on discernible changes to the lives of women in particular in transforming their identities in multiple re-invented cultural manifestations and cultivating a new kind of attachment towards their new homes. Interdisciplinary in tenor, this book will be of interest to scholars in development studies with a focus on South Asia as well as graduate students and researchers in the fields of migration, conflict studies, Sri Lanka studies and sociology. It may also have an impact on policymakers owing to its comprehensive empirically based analysis of the consequences of the Sri Lankan civil war for Tamils.
