kinds of movements we make as embodied actors in the world how we move through time and space be it by walking along city streets gliding across the dance floor or clicking our way through digital landscapes how we move toward and away from one another as erotic partners family members or fearful ethnic others and how we move toward ourselves and the earth we live on Above all Traversing focuses on tracing the ways in which the body and motion are fundamental to our lived experience of the world so we can develop a better understanding of the empirical details of Czech society and what they can reveal to us about the human condition
