Prisons, Terrorism and Extremism Andrew Silke, 2014-02-18 This volume provides an overview of intervention and management strategies for dealing with terrorist and extremist offenders in prisons The management of terrorist and extremist prisoners has long been recognised as a difficult problem in prisons In most countries such offenders are relatively rare but when their numbers increase these prisoners can undermine the effectiveness and safety of the prison system At a global level there is an increasing recognition of the problem of militant jihadi extremists in prison and their ability to recruit new members among other prisoners The numbers of such prisoners are low but growing and as a result prisons are becoming centres of radicalisation indeed in some cases terrorist plots appear to have been based entirely on networks that were radicalised in prison This volume presents an expertly informed assessment of what we know about terrorists extremists and prison exploring the experience of a wide range of countries and of different political movements Drawing

critical lessons from historical case studies the book examines critical issues around management strategies radicalisation and deradicalisation reform risk assessment as well as post release experiences The role that prisoners play in the conflicts beyond the jail walls is also examined with case studies illustrating how prisoners can play a critical role in bringing about a peace process or alternatively in sustaining or even escalating campaigns of violence Written by leading experts in the field this volume will be of much interest to students of terrorism counter terrorism criminology security studies and IR in general

Capturing Hill 70 Douglas E. Delaney, Serge Marc Durflinger, 2016-11-07 In August 1917 the Canadian Corps captured Hill 70 a vital piece of ground just north of the French industrial town of Lens The Canadians suffered some 5 400 casualties and defeated three days of determined German counter attacks This spectacularly successful but shockingly costly battle was as innovative as Vimy yet only a handful of Canadians have heard of it or of subsequent attempts to capture Lens which resulted in nearly 3 300 more casualties In *Capturing Hill 70* leading military historians mark the centenary of this triumph by dissecting different facets of the battle from planning and the conduct of operations to long term repercussions and commemoration This richly illustrated and thought provoking book reinstates Hill 70 to its rightful place among the pantheon of battles that helped forge the reputation of the famed Canadian Corps during the First World War and it sheds new light on the key role played by Lieutenant General Sir Arthur Currie who fought his first major action as commander of the Canadian Corps *Official Gazette of the United States Patent and Trademark Office*, 1993 [Political Economy of Financialization in the United States](#) Kurt Mettenheim, 2021-09-22 Combining balance sheet analysis with historical institutional analysis this book traces the evolution of social sector financial balance sheets in the US from 1960 to 2018 This innovative historical institutional approach ranging from the micro level of households to the macro level of the federal government reveals that the displacement of households by banks has been a long term process This gradual compounding of financialization is at odds with widely accepted views about financialization contemporary banking theory financial intermediation theory and post Keynesian and endogenous money approaches The book returns to time tested traditional principles of banking and taps unexpected affinities about market failures in transaction cost economics financial intermediation theory and core ideas in classic modern political and social economy about economic moralities and social reactions of self defense against unfettered markets This book provides an alternative explanation for the rise of finance and new ways to think about averting financialization and its devastating consequences This book marks a significant contribution to the literature on financialization social economics banking and the American political economy [Making Financial Globalization](#) Clara Park, 2024-10-29 In *Making Financial Globalization* Clara Park challenges the conventional wisdom that finance has always been global Drawing on original datasets of financial trade restrictions and domestic financial regulations in over 100 countries archival research of international negotiations and case studies of the US and China Park details how financial firms used multilateral lobbying strategies to create an international framework for financial service liberalization A novel

Why Presidents Fail And How They Can Succeed Again Elaine C. Kamarck, 2016-07-26 Failure should not be an option in the presidency but for too long it has been the norm From the botched attempt to rescue the U S diplomats held hostage by Iran in 1980 under President Jimmy Carter and the missed intelligence on Al Qaeda before 9 11 under George W Bush to most recently the computer meltdown that marked the arrival of health care reform under Barack Obama the American presidency has been a profile in failure In *Why Presidents Fail and How They Can Succeed Again* Elaine Kamarck surveys these and other recent presidential failures to understand why Americans have lost faith in their leaders and how they can get it back Kamarck argues that presidents today spend too much time talking and not enough time governing and that they have allowed themselves to become more and more distant from the federal bureaucracy that is supposed to implement policy After decades of imperial and rhetorical presidencies we are in need of a managerial president This White House insider and former Harvard academic explains the difficulties of governing in our modern political landscape and offers examples and recommendations of how our next president can not only recreate faith in leadership but also run a competent successful administration
