Oil In Uganda International Lessons For Success:

Oil in Uganda Ben Shepherd, 2015-07-28 The resource curse is not inevitable Uganda has time on its side but it must not waste it The debate on oil must move beyond the politics of the present and look to the long term Oil will be central to Uganda for decades to come It is incumbent on today's leaders in government opposition and civil society alike to work together to ensure a bright future for generations to come Lessons can be learned from those countries that have successfully managed natural resources as well as those that have suffered from their mismanagement Transparency matters if Uganda's social cohesion is going to be maintained A well informed national conversation on how to balance spending with saving is vital to the health of the agricultural sector and key to a positive future The need to protect technical advice from political influence is vital across all governments And a population that understands how revenues are being spent is more likely to work with government rather than against it building a positive feedback mechanism between people and the state that can act as a bulwark against future abuses

African Economic Sovereignty Warikandwa, Tapiwa Victor, Nhemachena, Artwell, 2019-02-06 The emergent so called Fourth Industrial Revolution is regarded by some as a panacea for bringing about development to Africans This book dismisses this flawed reasoning Surfacing how investors are actually looting and plundering Africa how the industrial internet of things the gig economies digital economies and cryptocurrencies breach African political and economic sovereignty the book pioneers what can be called anticipatory economics which anticipate the future of economies It is argued that the future of Africans does not necessarily require degrowth postgrowth postdevelopment postcapitalism or sharing solidarity economies it requires attention to age old questions about African ownership and control of their resources Investors have to invest in ensuring that Africans own and control their resources Further it is pointed out that the historical imperial structural creation of forced labour is increasingly morphing into what we call the structural creation of forced leisure which is no less lethal for Africans Because both the structural creation of forced labour and the structural creation of forced leisure are undergirded by transnational neo imperial plunder theft robbery looting and dispossession of Africans this book goes beyond the simplistic arguments that Euro America developed due to the industrial revolutions

Yayboke, Conor Savoy, Christopher Metzger, 2019-06-03 This report from the CSIS Project on Prosperity and Development looks at the domestic resource mobilization DRM reforms in developing countries through a political economy lens As countries mobilize more resources to fund their governments and services they can think more strategically about transitioning from a reliance on foreign aid to more mutually beneficial relationships with foreign countries There are structural challenges to mobilizing domestic resources that long have been the focus of DRM efforts however addressing the political economy and structural challenges will be critical in the face of increased need and plateauing levels of foreign aid It is critical that development approaches create the foundational capabilities and systems necessary to capitalize on political windows of opportunity
