Onshore Oilfield Surface Facilities: Process Safety Engineering Guide Kun Fang, 2025-07-24 This book focuses on oil and gas industry to systematically summarize the safety production operation design code and standards and advanced practice. It aims to provide guidance for the safety engineering process of onshore oilfield surface facilities. It is suitable for engineers engaged in the design of onshore oilfield surface facilities and can also be a reference to researchers in related fields. The basis of English translation of this book originally in Chinese was facilitated by artificial intelligence. The content was later revised by the author for accuracy.

International Oilfield Surface Facilities: Safety Analysis for Electrical Design Kun Ma, Yewei Mei, Xiaolong Meng, Zhaoxia Liu, Jingjun Huang, Zhiwei Liu, 2021-07-26 This book mainly introduces an essential safety concept and procedure for electrical engineering in oil and gas field. It begins by providing broad guidelines for performing electrical safety and operability review (ELSOR) giving reader a general overview of the field. It subsequently verifies electrical distribution overhead line and hazardous area classification safety analysis together with comparison of different international codes and standards with China national codes to interpret different safety concepts from different countries for electrical engineering in oil and gas field. This unique and complete co design safety analysis will greatly benefit international electrical engineers and operators of oil and gas fields. This book is with vivid flow chart accurate table expressing the analysis logic method and exact illustrations of code and standard of different country and area. This book stresses the electrical design safety for surface facilities of oil and gas oil field and will benefit to engineer who works with oil and gas field surface facilities engineering.
