Oecd Environmental Performance Reviews Greece 2009 Greek Version:

OECD Environmental Performance Reviews: Greece 2009 OECD,2010-03-15 OECD's comprehensive review of Greece's environmental programs and policies covering air and water management, nature and biodiversity, sustainable development, the environment-economy interface, the environment-social interface and international commitments **OECD**

Environmental Performance Reviews, 2010 *OECD Environmental Performance Reviews: Greece 2009 (Greek version)* OECD,2010-06-29 *OECD Environmental Performance Reviews: Greece 2020* OECD,2020-10-05

Greece has undergone extensive reforms to cope with a deep recession over the past decade. It has made progress in decoupling air pollutant emissions from GDP and improving the conservation status of natural habitats. However, the country faces challenges in managing waste and water and addressing air pollution.

Compromise Planning : A Theoretical Approach from a Distant Corner of Europe Louis C. Wassenhoven,2022-03-28

The purpose of the book is to elaborate a planning theory which departs from the plethora of theories which reflect the conditions of developed countries of the North West. The empirical material of this effort is derived from a country, Greece, which sits on the edge between North West and South East at the corner of Europe. No doubt, there is extensive international literature on planning theory in general from a bewildering variety of viewpoints. The interested professional or student of urban and regional planning is certainly aware of the dizzying flood of books, articles, and research reports on planning theory and of their never-ending borrowing of obscure concepts from more respectable scientific disciplines from mathematics to philosophy and from physics to economics, human geography, and sociology. He or she probably observed that there is a growing interest in theoretical approaches from the viewpoint of the so-called Global South. The author of the present book has for many decades faced the impasse of attempting to transplant theories founded on the experience of the North West to countries with a totally different historical, political, social, and geographical background. He learned that the reality that planners face is unpredictable, patchy, and responsive to social processes frequently of a very pedestrian nature. Planning strives to deal with private interests which planners are keen to envelop in a single public interest which is extremely hard to define. The behaviour of the average citizen far from being that of the neoclassical model of the homo economicus is that of an individual, a kind of homo individualis who interacts with the state and the public administration within a complex web of mutual dependence and negotiation. The state and its administrative apparatus, i.e. the key determinants and fixers of urban and regional planning policy, bargain with this individual, offer inducements, exemptions, derogations, and privileges, deviate unhesitatingly from their grand policy pronouncements but still defend the rationality and comprehensiveness of the planning system they have legislated and operationalized. It is by and large a successful modus vivendi but only thanks to a constant practice of compromise. Hence the term compromise planning, which the author coined as an alternative to all the existing theoretical forms of planning. This is the sort of planning and of the accompanying theory with which he deals in this book. It is the outcome of experience and

knowledge accumulated in a long personal journey of academic teaching in England and Greece research and professional involvement
