Roberts, Sang Hwan Seong, 2023-11-17 Contrary to the image of Korea as a largely self contained country until its economy became global during the 1990s this book shows that transnationalism has firmly been part of modern Korea's national experience throughout its existence The volume portrays Korea's frequent transnational entanglements with other nations in East Asia and the West from the start of its annexation into the Empire of Japan in 1910 to the present day It explores how modern Korea negotiated its complicated colonial relations with imperial Japan and its political and economic relations with the West in meeting the challenges of the globalized world Early chapters cover the origins of Korea's democratic republicanism among Korean immigrants in the United States the Royal Dutch oil industry in Korea and prisons in the Japanese empire From the latter half

of the twentieth century to the present the book probes Cold War politics between Korea and Europe transnational Korean communities in China Japan the Russian Far East and the West and ethnic Korean returnees from the Russian Far East With contributions from leading international scholars this collection s attention to modern Korean history economy gender studies and migration is ideal for upper level undergraduates and postgraduates *Understanding Risk Management and Hedging in Oil Trading* Chris Heilpern,2023-12-20 This book offers a simplified clear and logical explanation of risk and hedging in oil trading built up from basics It provides techniques to identify and manage risk legal risk operational risk financial risk moral risk etc in oil trading with the key chapters discussing price risk and hedging Written by an industry expert with real world experience and featuring examples based on real trades the book allows readers to understand the principles and applications without being overwhelmed or misled by jargon and assumptions and will be of interest to commodity traders investment bankers risk managers and anyone looking to gain further knowledge about oil market risks and hedging **Energizing Neoliberalism** Caleb Wellum,2023-10-17 This book argues that the 1970s energy crisis in the United States fostered the rise of neoliberalism in the United States by cultivating speculative discourses about energy that ultimately supported free market values expressed in trade and energy policies by the early 1980s The book s

interdisciplinary approach broadens the historiography of the energy crisis to consider the concepts meanings affects and practices that comprised it providing deeper context for the policy and geopolitical concerns that other scholars explore
