

## PLANT TECHNICIAN SKILLS AND ABILITIES PRACTICE TEST

### OVERVIEW

Welcome to the Plant Technician Skills and Abilities Practice Test. The purpose of this Practice Test is to help you get used to the questions on the tests that you will take and the speed at which you will need to work.

You will take three different paper-and-pencil tests. We call these tests the Plant Technician Skills Test (PTST) and Form I. Practice questions are provided for each of these tests.

When you take the real tests, you'll be provided with everything you need - including a test booklet, answer sheet, scratch paper and pencils. You will also be provided with a calculator to complete the PTST, although you may bring your own calculator if you're more comfortable using it.

You'll take each paper-and-pencil test separately. For each test, the test administrator will review instructions and give you an opportunity to ask questions. The tests are timed and you will need to work quickly and carefully. You will have 65 minutes to complete the PTST and 60 minutes to complete Form I.

During testing, you will read questions from a booklet, along with the 3-4 possible answers for each question, labeled A, B, C, or D. On a separate answer sheet you will mark ONE of the possible answers.

You must mark only one answer to each question. If you mark more than one answer to a question, it will NOT be counted as correct.

If you change an answer, it is important to completely erase your first answer so it does not appear that you have marked more than one answer.

Each correct answer adds one point to your score. Points are NOT taken off if you mark an incorrect answer. You should try to score as many points as possible.

Before you begin the tests, notify the test supervisor if you need special accommodations.
