Old Habits Die Hard Urban Renaissance:

Taming the Disorderly City Martin J. Murray, 2017-08-31 In postapartheid Johannesburg tensions of race and class manifest themselves starkly in struggles over rights to the city Real estate developers and the very poor fight for control of space as the municipal administration steps aside almost powerless to shape the direction of change Having ceded control of development to the private sector the Johannesburg city government has all but abandoned residential planning to the unpredictability of market forces This failure to plan for the civic good and the resulting confusion is a perfect example of the entrepreneurial approaches to urban governance that are sweeping much of the Global South as well as the cities of the North Martin J Murray brings together a wide range of urban theory and local knowledge to draw a nuanced portrait of contemporary Johannesburg In *Taming the Disorderly City* he provides a focused intellectual and political critique of the often ambivalent urban dynamics that have emerged after the end of apartheid Exploring the behaviors of the rich and poor each empowered in their own way as they rebuild a new Johannesburg we see the entrepreneurial city high rises shopping districts and gated communities surrounded by and intermingled with poverty In graceful prose Murray offers a compelling portrait of the everyday lives of the urban poor as seen through the lens of real estate capitalism and revitalization efforts

Proof! Amir Alexander, 2019-09-10 A lucid and convincingly argued narrative of how ancient geometric principles continue to shape the contemporary world Publishers Weekly On a cloudy day in 1413 a balding young man stood at the entrance to the Cathedral of Florence facing the ancient Baptistery across the piazza As puzzled passers by looked on he raised a small painting to his face then held a mirror in front of the painting Few at the time understood what he was up to even he barely had an inkling of what was at stake But on that day the master craftsman and engineer Filippo Brunelleschi would prove that the world and everything within it was governed by the ancient science of geometry In Proof the award winning historian Amir Alexander traces the path of the geometrical vision of the world as it coursed its way from the Renaissance to the present shaping our societies our politics and our ideals Geometry came to stand for a fixed and

unchallengeable universal order and kings empire builders and even republican revolutionaries would rush to cast their rule as the apex of the geometrical universe For who could doubt the right of a ruler or the legitimacy of a government that drew its power from the immutable principles of Euclidean geometry From the elegant terraces of Versailles to the broad avenues of Washington DC and on to the boulevards of New Delhi and Manila the geometrical vision was carved into the landscape of modernity Euclid Alexander shows made the world as we know it possible **A Socialist Realist History?** Kristina Jõekalda,Krista Kodres,Michaela Marek,2019-06-17 How did the Eastern European and Soviet states write their respective histories of art and architecture during 1940s 1960s The articles address both the Stalinist period and the Khrushchev Thaw when the Marxist Leninist discourse on art history was invented and refined Although this discourse was inevitably Sovietized in a process dictated from Moscow a variety of distinct interpretations emerged from across the Soviet bloc in the light of local traditions cultural politics and decisions of individual authors Even if the new official discourse often left space open for national concerns it also gave rise to a countermovement in response to the aggressive ideologization of art and the preeminence assigned to Socialist Realist aesthetics **Coming Home** Michael McCaughan,2017-03-10 Some part of me believed I would become a more complete person if I spoke Irish more in tune with my roots my identity my very being A hugely enjoyable linguistic travelogue that is also a sort of love story full of passion lightness but also commitment McCaughan s engaging prose is a joy to read Discover the Sex Pistols connection with C il Aodha and many another startling fact about the Irish language This journey towards a homecoming will touch many hearts Joseph O Connor This is the story of Michael McCaughan s journey around Ireland and the Irish language From a surreal start involving dedicated listening to Raidi na Gaeltachta s death notices to rediscovering the soul of the language through immersing himself in Phil Lynott s music all without becoming a Gaelbore Coming Home will make you want to follow in his footsteps and strike out in search of the gr **A Comparative Study of Thirty City-state Cultures** Mogens Herman Hansen,2000 **Between the Pagan Past and Christian Present in Byzantine Visual Culture** Paroma Chatterjee,2022-01-06 Up to its pillage by the Crusaders in 1204 Constantinople teemed with magnificent statues of emperors pagan gods and mythical beasts Yet the significance of this wealth of public sculpture has hardly been acknowledged beyond late antiquity In this book Paroma Chatterjee offers a new perspective on the topic arguing that pagan statues were an integral part of Byzantine visual culture Examining the evidence in patriographies chronicles novels and epigrams she demonstrates that the statues were admired for three specific qualities longevity mimesis and prophecy attributes that rendered them outside of imperial control and endowed them with an enduring charisma sometimes rivaling that of holy icons Chatterjee s interpretations refine our conceptions of imperial imagery the Hippodrome the Macedonian Renaissance a corpus of secular objects and Orthodox icons Her book offers novel insights into Iconoclasm and proposes a more truncated trajectory of the holy icon in medieval Orthodoxy than has been previously acknowledged **Big Plans** Kenneth L. Kolson,2003-11-03 This work springs from the idea that human

aspirations for the city tend to overstate the role of rationality in public life The author explores the part serendipity plays in urban experience

Bibliographie Mensuelle United Nations Library (Geneva, Switzerland),1994 Reimagining Shakespeare's Playhouse Joe Falocco,2010 Numerous attempts have been made in the modern and postmodern era to recreate the staging conventions of Shakespeare s theatre from William Poel to the founders of the New Globe This volume examines the work of these directors analyzing their practical successes and failures it also engages with the ideological critiques of early modern staging advanced by scholars such as W B Worthen and Ric Knowles The author argues that rather than indulging in archaism for its own sake the movement looked backward in a progressive attempt to address the challenges of the twentieth century The book begins with a re examination of the conventional view of Poel as an antiquarian crank Subsequent chapters are devoted to Harley Granville Barker and Nugent Monck the author argues that while Barker s major contribution was the dubious achievement of establishing the movement s reputation as an essentially literary phenomenon Monck took the first tentative steps toward an architectural reimagining of modern performance space an advance which led to later triumphs in early modern staging The book then traces the sporadic and irregular development of Tyrone Guthrie s commitment to early modern practices The final chapter looks at how competing historical theories of playhouse design influenced the construction of the Globe while the conclusion discusses the ongoing potential of early modern staging in the new millennium
