The Unexpurgated Beaton Cecil Beaton, 2007-12-18 Cecil Beaton was one of the great twentieth century tastemakers A photographer artist writer and designer for more than fifty years he was at the center of the worlds of fashion society theater and film The Unexpurgated Beaton brings together for the first time the never before published diaries from 1970 to 1980 and unlike the six slim volumes of diaries published during his lifetime these have been left uniquely unedited Hugo Vickers the executor of Beaton s estate and the author of his acclaimed biography has added extensive and fascinating notes that are as lively as the diary entries themselves As one London reviewer wrote Vickers waspish footnotes are the salt on the side of the dish Beaton treated his other published diaries like his photographs endlessly retouching them but for this volume Vickers went back to the original manuscripts to find the unedited diaries Here is the photographer for British and American Vogue designer of the sets and costumes for the play and film My Fair Lady and the film Gigi with a cast of characters from many worlds Bianca Jagger Greta Garbo David Hockney Truman Capote the Queen Mother and Princess Margaret Mae West Elizabeth Taylor Marlene Dietrich Rose Kennedy and assorted Rothschilds Phippses and Wrightsmans in New York San Francisco Palm Beach Rio and Greece on the Amalfi coast at shooting parties in the English countryside on yachts at garden parties at Buckingham Palace at costume balls in Venice Paris or London Beaton had started as an outsider and developed the power to observe first with his nose pressed up against the glass and then later from within inner circles Vickers has said his eagle eye missed nothing and his diaries are intuitive malicious he took a relish in hating certain figures praising and awestruck Truman Capote once said the camera will never be invented that could capture or encompass all that he actually sees The Unexpurgated Beaton is a book that is not only a great read and wicked fun but a timeless chronicle of our age

Times Magazine ,1978 *Designing for Diversity* Kathryn H. Anthony,2021-08-18 A powerful statement about the repercussions of discrimination and the benefits of diversity in architecture Providing hard data for trends that many perceive only vaguely and some deny altogether *Designing for Diversity* reveals a profession rife with gender and racial discrimination and examines the aspects of architectural practice that hinder or support the full participation of women and persons of color Drawing on interviews and surveys of hundreds of architects Kathryn H Anthony outlines some of the forms of discrimination that recur most frequently in architecture being offered added responsibility without a commensurate rise in position salary or credit not being allowed to engage in client contact field experience or construction supervision and being confined to certain kinds of positions typically interior design for women government work for African Americans and computer aided design for Asian American architects Anthony discusses the profession s attitude toward flexible schedules part time contracts and the demands of family and identifies strategies that have helped underrepresented individuals advance in the profession especially establishing a strong relationship with a mentor She also observes a strong tendency for underrepresented architects to leave mainstream practice either establishing their own firms going into government or corporate work or abandoning the field altogether Given the traditional mismatch between diverse consumers and predominantly white male producers of the built environment plus the shifting population balance toward communities of color Anthony contends that the architectural profession staves off true diversity at its own peril *Designing for Diversity* argues convincingly that improving the climate for nontraditional architects will do much to strengthen architecture as a profession Practicing architects managers of firms and educators will learn how to create conditions more welcoming to a diversity of users as well as designers of the built environment **Robert A.M.
