Hadot and Foucault on Ancient Philosophy ,2024-03-04 The affinities between Pierre Hadot s and Michel Foucault s interpretations of ancient philosophy as well as their impact are well known However these interpretations have been criticized in several crucial points This book provides the first extensive critical assessment of these interpretations It brings together specialists in ancient philosophy as well as Hadot and Foucault scholars in order both to explore criticisms and clarify Hadot s and Foucault s accounts In doing so it not only offers an overview of the main trends in Philosophy as a Way of Life but also recasts the debate and opens new paths of inquiry in the field **Michel Foucault et les religions**

comprehensive and interdisciplinary account of religious identities in the Global South Drawing on literature in various fields Felix Wilfred analyzes how religious identities intersect with the processes of globalization modernity and postmodernity He illustrates how the study of religion in the Global North often revolves around questions of secularism and fundamentalism whereas a neo Orientalist quality often attends study of religion in the Global South These approaches and theorizing fail to incorporate the experiences of lived religion in the South especially in Asia Historically the religions in the South have played a highly significant role in resistance to the domination by the colonial forces an important reason for the continued attachment of the peoples of the South to their religious universe This book puts the two regions and their scholarly norms in conversation with one another exploring the social political cultural and economic implications The Terror of Evidence

Michel Foucault: A Research Companion Sverre Raffnsøe, Morten S Thaning, Marius Gudmand-Hoyer, 2016-08-31 Michel Foucault continues to be hugely influential His diagnoses challenge us to rethink crucial phenomena such as madness discipline the human sciences the state neoliberalism sexuality and subject formation Based on his work in its entirety and with special emphasis on his many recently published lecture series this book provides an updated comprehensive and original account of his thought By reading Foucault as a philosopher it offers an extensive systematic assessment and discussion of his unique conception of philosophical practice and brings a unifying trajectory in his work to light

Foucault Stuart Elden, 2017-02-16 Michel Foucault's *The Archaeology of Knowledge* was published in March 1969 *Discipline and Punish* in February 1975 Although only six years apart the difference in tone is stark the former is a methodological treatise the latter a call to arms What accounts for the radical shift in Foucault's approach Foucault's time in Tunisia had been a political awakening for him and he returned to a France much changed by the turmoil of 1968 He taught at the experimental University of Vincennes and then moved to a prestigious position at the Collège de France He quickly became involved in activist work concerning prisons and health issues such as abortion rights and in his seminars he built research teams to conduct collaborative work often around issues related to his lectures and activism Foucault's *The Birth of Power* makes use of a range of archival material including newly available documents at the Bibliothèque nationale de France to provide a detailed intellectual history of Foucault as writer researcher lecturer and activist Through a careful reconstruction of Foucault's work and preoccupations Elden shows that while *Discipline and Punish* may be the major published output of this period it rests on a much wider range of concerns and projects

Esoteric Islam in Modern French Thought Ziad Elmarsafy, 2021-01-14 Why would a devout Catholic a committed Protestant and a Maoist atheist devote their lives and work to the study of esoteric aspects of Islam How are these aspects good to think with What are the

theoretical and intellectual problems to which they provide solutions These are the questions at the heart of Esoteric Islam in Modern French Thought The three French specialists of Islam described above form an intellectual and personal genealogy that structures the core of the text Massignon taught Corbin who taught Jambet in his turn Each of them found in the esoteric a solution to otherwise insurmountable problems desire for Massignon certainty for Corbin and resurrection immortality for Jambet Over the course of three long chapters focused on the life and work of each writer the book maps the central place of esoteric Islam in the intellectual life of twentieth and twenty first century France **Aux origines**

religieuses de la psychanalyse Jean-Marie Donegani, 2025-01-24T00:00:00+01:00 Des premiers textes de Freud aux derniers de Lacan la psychanalyse est adossée à une problématique religieuse qui sous-tend son histoire conceptuelle Tout commence avec l'analogie notée par le psychanalyste viennois entre les activités compulsives de la névrose obsessionnelle et le ritualisme typique de l'activité religieuse S'attachant ensuite à dévoiler le rôle de la religion dans l'histoire il la conçoit comme une illusion destinée à faire supporter à l'homme le poids de sa condition Historien des Lumières il exprime une hostilité violente à l'égard de ce leurre qui doit selon lui disparaître avec le progrès de la raison Lacan quitte le jugement de la religion en extriorité et en généralise pour la considérer comme un idiome doté d'une portée anthropogénétique Dans ce cadre la vérité n'a d'autre fondement que la parole elle ne repose plus sur l'adéquation de l'enoncé avec le réel mais sur la rectitude de l'nonciation soit la présence du locuteur son discours sur le sujet En privilégiant ainsi la dimension nonciative du langage Lacan prend place non pas seulement dans l'histoire de la psychanalyse mais bien au-delà dans celle de la vérité et de sa saisie par la philosophie et la religion C'est donc une version inédite de l'anthropologie analytique qu'il parvient mais aussi une relecture du christianisme qui défait celui-ci de toute couleur religieuse retrouvant par là quelques-unes des plus novatrices laborations théologiques du XXe siècle Psychanalyste Jean-Marie Donegani est professeur maître des Universités et membre du Groupe lacanien d'études et de recherches cliniques **Focus On: 100 Most Popular Former Roman Catholics** Wikipedia contributors,

Language, Madness, and Desire Michel Foucault, 2015-05-26 As a transformative thinker of the twentieth century whose work spanned all branches of the humanities Michel Foucault had a complex and profound relationship with literature And yet this critical aspect of his thought because it was largely expressed in speeches and interviews remains virtually unknown to even his most loyal readers This book brings together previously unpublished transcripts of oral presentations in which Foucault speaks at length about literature and its links to some of his principal themes madness language and criticism and truth and desire The associations between madness and language and madness and silence preoccupy Foucault in two 1963 radio broadcasts presented here in which he ranges among literary examples from Cervantes and Shakespeare to Diderot before taking up questions about Artaud's literary correspondence lettres de cachet and the materiality of language In his lectures on the relations among language the literary work and literature he discusses Joyce Proust Chateaubriand Racine and Corneille as well as the linguist Roman Jakobson What we know as literature

Foucault contends begins with the Marquis de Sade to whose writing particularly *La Nouvelle Justine* and *Juliette* he devotes a full two part lecture series focusing on notions of literary self consciousness Following his meditations on history in the recently published *Speech Begins after Death* this current volume makes clear the importance of literature to Foucault's thought and intellectual development

Scientific and Philosophical Perspectives in Neuroethics James J.

Giordano, Bert Gordijn, 2010-02-18 While neuroscience has provided insights into the structure and function of nervous systems hard questions remain about the nature of consciousness mind and self Perhaps the most difficult questions involve the meaning of neuroscientific information and how to pursue and utilize neuroscientific knowledge in ways that are consistent with some construal of social good Written for researchers and graduate students in neuroscience and bioethics *Scientific and Philosophical Perspectives in Neuroethics* explores important developments in neuroscience and neurotechnology and addresses the philosophical ethical and social issues and problems that such advancements generate It examines three core questions First what is the scope and direction of neuroscientific inquiry Second how has progress to date affected scientific and philosophical ideas and finally what ethical issues and problems does this progress and knowledge incur both now and in the future

Rethinking Modern European Intellectual History Darrin M.

McMahon, Samuel Moyn, 2014-03 Modern European intellectual history is thriving as never before It has recovered from an era in which other trends like social and cultural history threatened to marginalize it But in spite of enjoying a contemporary renaissance the field has lost touch with the tradition of debating why and how to study ideas and thus lacks both a well articulated set of purposes and a range of arguments for exactly what it means to pursue those purposes This volume revives that tradition Recalling past attempts to showcase the diversity and differentiation of modern European intellectual history this volume also documents how much has changed in recent decades Some authors are much readier to defend a history of ideas practiced over the long term once the defining sin of the field Others go so far as to insist on how ideas are always open to reappropriation and reevaluation beyond their original contexts suggesting that it is an error to reduce the ideas to those contexts Others still argue that under threat from trends like social history intellectual historians have forsaken any attempt to resolve for themselves how ideas are socially embodied The volume also registers old and new trends in history that have affected the study of ideas including the history of science the history of academic disciplines the history of psychology and self international and global history and women's and gender history

Languages of Belief and Early Sociology in

Nineteenth-Century France Michiel Van Dam, 2024-09-27 This book presents a new reading of the history of French social science and religion through an investigation of early sociology's techniques for narrating the category of belief The author argues that by looking at the history of social sciences in this manner we gain a deeper understanding of both our present debates on post secularity as well as our modernist past both of which were thoroughly shaped by their reflections and critiques on the notion of belief yet failed to enter into any sort of meaningful communication with each other This book seeks

to rectify this failure by introducing the concept of belief languages an anthropological framework designed to historicize different discussions on belief and allow for their comparative description and analysis **Die Körper der Religion - Les**

Le nouvel empire des ›kami‹ Edouard L'Hérisson, 2025-06-30 How does shint have taken part into the Japanese conquest of the Manchurian frontier Modern shint is often seen as a unified ritual system based on shrines which are considered either as places embodying State shint or as popular places of worship This point of view is even more emphasized in the case of overseas shrines erected during the Japanese expansion in Asia The first purpose of this book is to show that these two dimensions are complementary and take part in the imperial movement in Manchuria during the first half of the 20th century Contrarily to previous studies for example Shimizu 2022 and Nakajima 2010 that usually focus on shrines it focuses on the cases of three shint leaders involved in the building process of Japanese Manchuria Matsuyama Teiz 1878 1947 Deguchi Onisabur 1871 1948 and Kakei Katsuhiko 1872 1961 These three cases allow us to shed light on three different ways of appropriating Manchurian space enabling us to understand how such leaders are in the meantime driven by and driving forces behind the diffusion of shint in particular but also the imperial process in general in these territories stretching from the Liaodong peninsula to Inner Mongolia
