Johnson,Bonnie Johnson,2006 High Stakes is a critical ethnography of an underfunded public elementary school in this era of accountability and high stakes testing The book was written during the year the authors served as third and fourth grade teachers and it juxtaposes the experiences of mostly minority children of poverty and their teachers with an examination of high stakes testing policies and the loss of a comprehensive education to political dictates      **The Prison School** Lizbet Simmons,2017 Police officers and metal detectors have become fixtures in American public schools In this tough on crime security oriented era the new gold standard for school discipline has become the criminal justice system While harsh school punishment has reshaped schools and communities across the socioeconomic divide nowhere is the overlap between classroom and prison more striking than at the Orleans Parish Prison the site of a New Orleans public school enrolling primarily poor African American boys expelled under zero tolerance policies for minor infractions such as tardiness but not actual criminal behavior The Prison School examines how and why public schools take a punitive approach to education and analyzes how this criminalizing mode influences a student s approach toward correctional custody How did schools and prisons two very different kinds of public institutions become so intertwined and

what does this combination mean for students communities and ultimately a democratic society How do we begin to unravel the ties that bind the racialized realities of mass school failure and mass incarceration And what does this mean to segments of the population in particular African American males who have been systematically removed from their schools and their society Provided by publisher *Free Schools* David Gillespie,2014-02-01 The bestselling author of *Sweet Poison* shows us how to get the better of an education system that is costing a fortune in fees yet failing to deliver David Gillespie has six kids When it came time to select high schools he thought it worth doing some investigation to assess the level of advantage his kids would enjoy if he spent the required 1 3 million to send them all to private schools Shockingly the answer was none whatsoever Intrigued David continued his research only to discover he was wrong on most counts as are most parents when it comes to working out what factors deliver a great education He discovered that class size doesn't matter your kids aren't any better off in co ed than single sex schools and vice versa composite classes are fine fancy buildings are a waste of money the old tie network won't cut it in the new industries and NAPLAN is misread by everyone so is largely meaningless as a measure of quality Taking on an ingrained and historical system of vested interests the unions the government our own sense of worth privilege and entitlement this book is controversial and absolutely necessary It is well researched authoritative and accessible It is a must read for parents as well as teachers and policy makers The Times-picayune Index ,2002 **When the Saints Come Marching in** Bruce Sacerdote,2008 I examine academic performance and college going for public school students affected by Hurricanes Katrina and Rita Students who are forced to switch schools due to the hurricanes experience sharp declines in test scores in the first year following the hurricane However by the second and third years after the disaster Katrina evacuees displaced from Orleans Parish appear to benefit from the displacement experiencing a 15 standard deviation improvement in scores The test score gains are concentrated among students whose initial schools were in the lowest quintile of the test score distribution and among students who leave the New Orleans MSA Katrina evacuees from suburban areas and Rita evacuees from the Lake Charles area eventually recover most of the ground lost during 05 06 but do not experience long term gains relative to their pre Katrina test scores High school age Orleans evacuees have higher college enrollment rates than their predecessors from the same high schools Meanwhile Katrina evacuees from the suburbs experience a 3 5 percentage point drop in their rate of enrollment in four year colleges Those evacuees do not make up for the decline in the subsequent two years Later cohorts of suburban New Orleans evacuees are unaffected The results suggest that for students in the lowest performing schools the long term gains to achievement from switching schools can more than offset even substantial costs of disruption Complete Book of Colleges, 2005 Edition Princeton Review (Firm),2004-07-20 Up to date information on 1 780 colleges and universities *Alternatives to Privatizing Public Education and Curriculum* Daniel Ness,Stephen J. Farenga,2017-03-16 Through conversations in honor of Dale D Johnson this book takes a critical view of the monoculture in curriculum and policy that has developed in education with the increase of federal funding and

privatization of services for public education and examines the shift from public interest and control to private and corporate shareholder hegemony Most states educational responsibilities assessment of constituents curriculum development and instructional protocols are increasingly being outsourced to private enterprises in an effort to reduce state budgets These enterprises have been given wide access to state resources such as public data from state sanctioned testing results field testing rights to public schools and financial assistance Chapter authors challenge this paradigm as well as the model that has set growing premiums on accountability and performance measures Connecting common impact between the standards movement and the privatization of education this book lays bare the repercussions of high stakes accountability coupled with increasing privatization Winner of The Society of Professors of Education Book Award 2018 *Complete Book of Colleges, 2011 Edition* Princeton Review (Firm),2010-08-03 Lists more than 1 600 colleges and universities and provides information about admissions and academic programs The Complete Book of Colleges, 2013 Edition Princeton Review,2012-08-07 Profiles every four year college in the United States providing detailed information on academic programs admissions requirements financial aid services housing athletics contact names and campus life **Middle School Journal** ,1998
