## **Past Future International Monetary System:**

East-West Economic Relations in the 1990s Gary K. Bertsch, Christopher Saunders, 1989-06-18 This volume contains a number of analyses of the present global situation and provides a reasoned preview of likely macro economic developments during the next decade in the relations between East and West It is based on the 1988 11th Workshop on East West European Economic Interaction

Global Divergence in Trade, Money and Policy Volbert Alexander, Hans-Helmut Kotz, 2006-01-01 Although the globalization of markets and the rapid growth in worldwide information technologies supports harmonization and integration between countries substantial differences still exist throughout the world Global Divergence in Trade Money and Policy explores the disparities between a range of countries arguing that their differences are a major factor in international tensions and will remain a substantial problem for many decades to come The book analyses the implications of disparities in the areas of economic power institutional structures per capita income international trade exchange rate systems financial markets monetary policy issues the development of monetary unions and welfare Case studies encompassing Asia India Greece Mexico the US and EU accession countries illustrate how differently the globalization process is regarded and valued by countries depending on their own particular circumstances Exploring the role of different countries in the processes of globalization and shedding light on the issues surrounding economic divergences this book will strongly appeal to economists with a special interest in globalization development and international trade

Reform Of The International Monetary System And Internationalization Of The Renminbi Ruogu Li, 2015-11-09 This book argues that only by reforming the international monetary system can we prevent financial crises in the future and the internationalization of the Renminbi China s national currency will be an important step in the process Just as the old saying goes An old building needs to be demolished before a new one can be erected in its place there will be no construction without destruction The commencement of the dismantling of the old monetary system is also the beginning of the construction of the new one Contrary to Western rhetoric which portrays China as part of the cause of the recent financial crisis the author contends that China is actually a victim of the current unjust international economic and monetary system To address the imbalance and break the dollar dominated international monetary system the author calls for the internationalization of the Renminbi and diversification of the international monetary system Written by one of the foremost financial practitioners in China this book is thought provoking and provides a unique Chinese perspective on how the international monetary system should be reformed what the future system should look like and the role China should play in the process It is a required reading for anyone interested in understanding China s own vision in its rise in the global political economic and financial systems
