Russell,Lynn Marie Jamieson,2008 This course textbook provides a comprehensive three step plan for successful programming of services programme leadership and understanding operational management in recreation and leisure organisations *Whatever Happened to the Leisure Society?* A. J. Veal,2018-10-10 The idea of a leisure society was in its heyday in the 1960s and 1970s when it was predicted that the pattern of falling working hours which had been experienced in Western societies in the first half of the twentieth century would continue indefinitely The leisure society has clearly not been realised On the contrary contemporary industrial societies seem to be characterised by a shortage of time experienced as time squeeze and stress The leisure society idea can be seen as the modern version of the age old dream of a life of ease and plenty This analytically and empirically rich book traces the idea in history through biblical classical Greek medieval and nineteenth century utopian writings and into twentieth century concerns with dystopia and the impact of rapid technological change The leisure society concept turns out to have been an elusive and short lived phenomenon For a variety of reasons the trend towards shorter working hours ran out of steam in the last quarter of the twentieth century However while leisure scholars have deserted the topic a diverse range of activists including environmentalists economists and feminists continue to make the case for reducing working hours *Whatever Happened to the Leisure Society* concludes that the on going struggle for time should be supported for the sake of human health and well being and for the sake of the planet This is a valuable resource for students and academics in the fields of leisure studies cultural studies history economics sociology and political science *Learning Cities for Adult Learners* Leodis Scott,2015-04-06 Learning cities call for a connection of adult education to elementary secondary and postsecondary institutions along with vocational and corporate workspaces This volume considers how learning cities for

adult learners could be created in America that promote lifelong learning and education Encouraging a widespread approach to educate and learn across disciplines within communities and inside the minds of all people topics covered include workplace and organizational learning community engagement and service learning public libraries and cooperative extension and leisure recreation and public health education This is the 145th volume of the Jossey Bass series New Directions for Adult and Continuing Education Noted for its depth of coverage it explores issues of common interest to instructors administrators counselors and policymakers in a broad range of education settings such as colleges and universities extension programs businesses libraries and museums
