Pathways To Change Second Edition Brief Therapy With Difficult Adolescents:

Pathways to Change, Second Edition Matthew D. Selekman, 2015-06-16 This innovative practical guide presents an effective brief therapy model for working with challenging adolescents and their families. It demonstrates powerful ways to help families gain new perspectives on longstanding problems and co-construct realistic, well-formulated goals even when past treatment experiences have left them feeling demoralized. Solution-oriented techniques and strategies are augmented by ideas and findings from other therapeutic traditions with a focus on engagement and relationship building. Illustrated with extensive clinical material, the book shows how to draw on each family's strengths to collaboratively bring about significant behavioral change.

Pathways to Change Matthew D. Selekman, 1993-09-17 Few therapists dispute the difficulties in treating troublesome or reluctant adolescents. Filling a gap in the literature, this volume specifically addresses the clinician's needs for working with this difficult population. Matthew D. Selekman presents a Solution-Oriented Brief Family Therapy approach, a highly pragmatic and innovative therapy model for working with these challenging cases. Encouraging therapeutic improvisation and incorporating the use of humor, Selekman demonstrates how the clinician can capitalize on the strengths and resources of family members, peers, and other involved mental health professionals to resolve the client's presenting problems rapidly. His approach artfully integrates cutting-edge therapeutic ideas from Steve de Shazer, Michael White, Tom Andersen, and the Galveston group. Dispelling the notion that the Solution-Oriented Brief Therapy model is merely a band-aid approach, the author demonstrates powerful methods for facilitating systemic, lasting change.

PATHWAYS TO CHANGE includes many helpful features that enable mental health and addiction professionals to conduct effective brief therapy successfully with difficult adolescents and their families. Selekman provides detailed guidelines for therapeutic task design and selection, purposeful systemic interviewing, and empirically based strategies for engaging difficult adolescents and ways to collaborate with involved helping professionals from larger systems. He also presents a blueprint for how to conduct his Solution-Oriented Parenting group, which can be utilized as an alternative to regular family therapy or when therapists are unable to engage the adolescents in treatment. Incorporating case examples and actual interview transcripts to highlight key therapeutic techniques, Selekman presents a comprehensive ecosystemic therapeutic approach that provides useful therapeutic options for working with a challenging population.

PATHWAYS TO CHANGE is an important resource for psychologists, psychotherapists, social workers, addiction professionals, family therapists, and anyone working with difficult adolescents and their families.
