Rodriguez,2020-04-03 This book offers a historical and comparative overview of the evolution of racial classifications in the United States Latin America and the Caribbean The Hispanicization of America is precipitating a paradigm shift in racial thinking in which race is no longer defined by distinct characteristics but rather is becoming synonymous with ethnic cultural identity Traditionally assimilation has been conceived of as a unidirectional and racialized phenomenon Newly arrived immigrant groups or longstanding minority indigenous populations were Americanized in confining their racial and ethnic natures to the private sphere and adopting in the public sphere the cultural mores norms and values of the dominant cultural racial group In contrast the Hispanicization of America entails the horizontal assimilation of various groups from Spanish speaking countries throughout the Western Hemisphere and Caribbean into a pan ethnic Hispanic Latino identity that also challenges the privileged position of whiteness as the primary and exclusive referent for American identity Instead of focusing on one Hispanic group ethnic identity or region this book chronicles the development of racial identity across the largest Hispanic groups throughout the United States **Media, Central American Refugees, and the U.S. Border Crisis** Robin Andersen,Adrian Bergmann,2019-06-13 This book identifies the history conventions and uses of security discourses and argues that such language and media frames distort information and mislead the public misidentify the focus of concern and omit narratives able to recognize the causes and solutions to humanitarian crises What has been identified as a crisis at the border is better understood as an on going crisis of violence building over decades that has forced migrants from their homes in the countries of the Northern Triangle Authors Robin Andersen and Adrian Bergmann look back to U S military policies in the region and connect this legacy to the cross border development of transnational gangs government

corruption and on going violence that often targets environmental and legal defenders They argue that the discourses of demonization and securitization only help perpetuate brutality in both Central America and the United States especially in the desert borderlands of the southwest They offer ways in which stories of migrants can be reframed within the language of justice empathy and humanitarianism A compelling examination of language media and politics this book is both highly contemporary and widely applicable perfect for students and scholars of global media political communications and their many intersections *American Book Publishing Record Cumulative 1998* R R Bowker Publishing,1999-03
