Migration and Security in the Global Age Feargal Cochrane, 2015-03-05 This book is an interdisciplinary examination of several interconnecting aspects of migrant communities in the context of contemporary conflict and security The book illustrates that within this globalised world migrants have become key actors living in the spaces between states as well as within them Arguing that migrants and their descendants are vital and complex constituencies for the achievement of security in this global age the volume uses a number of case studies including Palestinian Sri Lankan Irish and Somali diaspora communities to explore the different ways that such groups intersect with issues of security and how these attitudes and behaviours have evolved in the context of political transnationalism and the global economy Comparative and econometric studies of migration can provide a wide lens but at times fail to capture the depth and complexity of these communities and attitudes within them At the same time empirically focused studies are often case specific and while rich in local detail lack comparative breadth or the ability to make connections and see irregularities across a number of contexts that might be of interest to scholars beyond that specific area This book connects these literatures together more thoroughly In particular it demonstrates that political cultural economic and social factors all play important roles in helping us understand the actual

and potential roles of migrant communities in conflict and the establishment of sustainable security within contemporary society. Lastly, given this context, the book seeks to examine the challenges and opportunities that exist for such a sustainable security strategy to be developed. This book will be of much interest to students of migration and diaspora communities, peace and conflict studies, security studies, and ethnic conflict.

Calling for the Super Citizen Elisabeth Badenhop, 2023-07-31

This book offers the first empirical and holistic analysis of the design, implementation, and effects of the new naturalisation regimes in the United Kingdom and Germany introduced in the 2000s. Based on a multi-sited state ethnography, it uniquely compares the law on the books, the local administration, and the lived experiences of citizenship tests, courses, and ceremonies from an interdisciplinary social science perspective. The book argues that naturalisation procedures in both countries suggest to migrants to constantly optimise themselves in the state's interests toward the subjectivity of the Super Citizen, a political, economic, and cultural asset to the liberal democratic capitalist nation-state. The concept of the Super Citizen enables us to highlight and criticise the overburdening expectations toward citizens by application as opposed to citizens by birth. The analysis reveals that the self-presentation of Britain and Germany as liberal and meritocratic polities is in stark contrast to migrants' lived experiences of the naturalisation process. By shedding light on naturalisation policies' efficacy, this book is aimed at students and scholars in sociology, politics, law, anthropology, and education, as well as policy makers in the areas of citizenship and migration.

The Routledge Handbook of the Ethics of Immigration Sahar Akhtar, 2025-03-24

Immigration poses some of the major moral, economic, and political challenges of the twenty-first century. Questions of the state's responsibilities toward immigrants, open borders, security, coping with the displacement of people caused by climate change, and natural disasters, and deciding who has a right to remain are but some of the significant issues currently faced by governments, policymakers, and humanitarian organizations. The Routledge Handbook of the Ethics of Immigration is an outstanding reference source to this vitally important topic. Comprising twenty-five chapters by an international team of philosophers, economists, political scientists, and legal theorists, the handbook is organized into seven clear parts: Open Borders or Right to Control; Theoretical Arguments; Open Borders or Right to Control: Practical Approaches; Culture, Language, and Institutions; Immigration and Discrimination; Entry, Exit, and Exploitation; Climate Refugees and Protection; Immigration Enforcement. In these sections, a range of important issues are explored, such as immigration and cultural diversity, the economic aspects of immigration, discrimination, exploitation, definitions of refugee status, territory, citizenship, trafficking, and gender. As such, The Routledge Handbook of the Ethics of Immigration will be of great interest to those studying philosophy, politics, economics, and related subjects such as law, sociology, and social policy.

The New Politics of Immigration and the End of Settler Societies Catherine Dauvergne, 2016-03-14

Over the past decade, a global convergence in migration policies has emerged, and with it, a new, more spirited politics of immigration. It is now evident that the idea of a settler society, previously an important landmark in understanding migration, is a thing of the past. What are the consequences of this

shift for how we imagine immigration And for how we regulate it This book analyzes the dramatic shift away from the settler society paradigm in light of the crisis of asylum the fear of Islamic fundamentalism and the demise of multiculturalism What emerges is a radically original take on the new global politics of immigration that can explain policy paralysis in the face of rising death tolls failing human rights arguments and persistent state desires to treat migration as an economic calculus

Performance Objectives in Education, 1973 Analyzing Historical Narratives Stefan Berger, Nicola Brauch, Chris Lorenz, 2021-05-14 For all of the recent debates over the methods and theoretical underpinnings of the historical profession scholars and laypeople alike still frequently think of history in terms of storytelling Accordingly historians and theorists have devoted much attention to how historical narratives work illuminating the ways they can bind together events shape an argument and lend support to ideology From ancient Greece to modern day bestsellers the studies gathered here offer a wide ranging analysis of the textual strategies used by historians They show how in spite of the pursuit of truth and objectivity the ways in which historians tell their stories are inevitably conditioned by their discursive contexts **Uncertain citizenship**

Anne-Marie Fortier, 2021-04-13 Uncertainty is central to the governance of citizenship but in ways that erase even deny this uncertainty This book investigates uncertain citizenship from the unique vantage point of citizenisation twenty first century integration and naturalisation measures that make and unmake citizens and migrants while indefinitely holding many applicants for citizenship in what Fortier calls the waiting room of citizenship Fortier's distinctive theory of citizenisation foregrounds how the full achievement of citizenship is a promise that is always deferred if migrants and citizens are continuously citizenised so too are they migratised Citizenisation and migratisation are intimately linked within the structures of racial governmentality that enables the citizenship of racially minoritised citizens to be questioned and that casts them as perpetual migrants Drawing on multi sited fieldwork with migrants applying for citizenship or settlement and with intermediaries of the state tasked with implementing citizenisation measures and policies Fortier brings life to the waiting room of citizenship giving rich empirical backing to her original theoretical claims Scrutinising life in the waiting room enables Fortier to analyse how citizenship takes place takes time and takes hold in ways that conform exceed and confound frames of reference laid out in both citizenisation policies and taken for granted understandings of the citizen and the migrant Uncertain Citizenship's nuanced account of the social and institutional function of citizenisation and migratisation offers its readers a grasp of the array of racial inequalities that citizenisation produces and reproduces while providing theoretical and empirical tools to address these inequalities **I Freed Myself** David Williams, 2014-04-21 This
