After a comprehensive introduction to internationalization and to strategic planning concrete recommendations are made. The book first looks at going international for new markets. This book turns these opportunities into realities from deciding which vehicle to buy to keeping it running in tip top condition to enhancing the performance and appearance of your VW. Sison, Ignacio Ferrero, Gregorio Guitián, 2018-03-09 Can business activities and decisions be virtuous? This is the first business ethics textbook to take a virtue ethics approach. It explains how virtue ethics compares with alternative approaches to business ethics such as utilitarianism and deontology and argues that virtue ethics best serves the common good of society. Looking across the whole spectrum of business including finance, governance, leadership, marketing and production, each chapter presents the theory of virtue ethics and supports students learning with chapter objectives, in depth interviews with professionals and real life case studies from a wide range of countries. *Business Ethics: A Virtue Ethics and Common Good Approach* is a valuable text for advanced undergraduates and masters level students on business ethics courses.
