Rogers,2020-10-15 Musicals it is often said burst into song and dance when mere words can no longer convey the emotion This book argues that musicals burst into song and dance when one body can no longer convey the emotion Rogers shows how the musical s episodes of burlesque and minstrelsy model the kinds of radical relationships that the genre works to create across the different bodies of its performers spectators and creators every time the musical bursts into song These radical relationships borne of the musical s obsessions with bad performances of gender and race are the root of the genre s progressive play with identity and thus the source of its subcultural power However this leads to an ethical dilemma Are the musical s progressive politics thus rooted in its embrace of regressive entertainments like burlesque and minstrelsy The Song Is You shows how musicals return again and again to this question and grapple with a guilt that its joyous pleasures are based on exploiting the laboring bodies of its performers Rogers argues that the discourse of integration which claims that songs should advance the plot has functioned to deny the radical work that the musical undertakes every time it transitions into song and dance Looking at musicals from The Black Crook to Hamilton Rogers confronts the gendered and racial dynamics that have always under girded the genre and asks how we move forward Film Blackness Michael Boyce Gillespie,2016-08-25 In Film Blackness Michael Boyce Gillespie shifts the ways we think about black film treating it not as a category a genre or strictly a representation of the black experience but as a visual negotiation between film as art and the discursivity of race Gillespie challenges expectations that black film can or should represent the reality of black life or provide answers to social problems Instead he frames black film alongside literature music art photography and new media treating it as an interdisciplinary form that enacts black visual and expressive culture Gillespie discusses the racial grotesque in Ralph Bakshi s Coonskin 1975 black performativity in Wendell B Harris Jr s Chameleon Street 1989 blackness and noir in Bill Duke s Deep Cover 1992 and how place and desire impact blackness in Barry Jenkins s Medicine for Melancholy 2008 Considering how each film represents a distinct conception of the relationship between race and cinema Gillespie recasts the idea of black film and poses new paradigms for genre narrative aesthetics historiography and intertextuality African American Perspectives in Musical Theatre Eric M.
