share a preoccupation with critically reflecting urgent concerns rooted in Romanian realities and are notable dramaturgical experiments that push the boundaries of the genre In addition these plays also seek novel ways to examine universal experiences of the human condition such as love loss abuse betrayal grief violence manipulation and despair This unique anthology celebrates the renewed vitality and variety of writing for the stage after 1990 and endeavours to place Romanian theatre in a forward looking transnational context

Lowlands Niederungen by Herta Müller adapted for the stage by Mihaela Panainte German This stage adaptation is based on a volume of short stories by Herta Müller written in German in 1982 and focuses on the perspective of a child narrator by way of a series of episodes that centre on mundane aspects of daily life in a remote village against the backdrop of the oppressive atmosphere of mid twentieth century Romania

The Man Who Had His Inner Evil Removed Omul din care a fost extras răul by Marius Visniec Romanian This topical play is a sharp reflection on the voluntary servitude in which we place ourselves often unawares in conditions of our contemporary consumer culture and a fierce critique of increasingly dominant tendencies to abandon moral criteria in political life

covers of every single country that issues its own travel document. It clearly illustrates how varied passports can be despite the guidelines established by the International Civil Aviation Organization. Arranged by continent, each country's entry includes a full color reproduction of its passport cover as well as brief information including its location on the world map, flag, population, population density, political status, GDP, and per capita income, official languages, and visa index. In an increasingly globalized world in which a passport has become one of the most important credentials we possess, this compendium conveys the symbolic power of these documents and the fascinating stories behind their designs and development.

The Passport Martin Lloyd, 2005-01-01

The passport is one of the most widespread documents in worldwide use and yet paradoxically it has no basis in law: one state cannot demand another to do something, give access simply by issuing a document. Yet by insisting on the requirement of holding a passport, the state has provided itself with a neat self-financing data collection and surveillance system. This well-illustrated book tells for the first time the story of the passport from earliest times to the present day, only do so with the authority of the king or emperor. The passport's power to facilitate passage was then embodied in it from the beginning. But the passport is also connected with territorial and population control by the State. Today the machine-readable passport enables swift checks against lists of names, enabling customs control to sift out undesirables, and the question of identity cards used throughout continental Europe is again an issue in British politics. And revealing the mechanism of the passport system, including the secrets of the machine-readable passport as well as looking at special diplomatic and royal passports, this book provides an accessible and engaging history of this most widespread of documents.
