have made bought sold exhibited and preserved them and how that value changes as a guilt travels from Amish hands to marketplace to consumers A fifth generation Mennonite quiltmaker herself Smucker traces the history of Amish quilts from their use in the late nineteenth century to their sale in the lucrative business practices of today Through her own observations as well as oral histories newspaper accounts ephemera and other archival sources she seeks to understand how the term Amish became a style and what it means to both quiltmakers and consumers She also looks at how quilts influence fashion and raises issues of authenticity of guilts in the marketplace Whether considered as art craft or commodity Amish quilts reflect the intersections of consumerism and connoisseurship religion and commerce nostalgia and aesthetics By thoroughly examining all of these aspects Amish Ouilts is an essential resource for anyone interested in the history of these A Stitch in Time Aimee E. Newell, 2014-03-15 Drawing from 167 examples of decorative needlework primarily samplers and quilts from 114 collections across the United States made by individual women aged forty years and over between 1820 and 1860 this exquisitely illustrated book explores how women experienced social and cultural change in antebellum America The book is filled with individual examples stories and over eighty fine color photographs that illuminate the role that samplers and needlework played in the culture of the time For example in October 1852 Amy Fiske 1785 1859 of Sturbridge Massachusetts stitched a sampler But she was not a schoolgirl making a sampler to learn her letters Instead as she explained The above is what I have taken from my sampler that I wrought when I was nine years old It was w rough t on fine cloth and it tattered to pieces My age at this time is 66 years Situated at the intersection of women s history material culture study and the history of aging this book brings together objects diaries letters portraits and prescriptive literature to consider how middle class American women experienced the aging process Chapters explore the physical and mental effects of old age on antebellum women and their needlework technological developments related to needlework during the antebellum period and the tensions that arose from the increased mechanization of textile production and how gift needlework functioned among friends and family members Far from being solely decorative ornaments or functional household textiles these samplers and guilts served their own ends They offered aging women a means of coping of sharing and of expressing themselves These threads of time provide a valuable and revealing source for the lives of mature antebellum women Publication of this book was made possible in part through generous funding from the Coby Foundation Ltd and from the Ouilters Guild of Dallas Helena Hibbs Endowment Fund **Textile Collections** Amanda Grace Sikarskie, 2016-04-08 Collections of textiles historic costume guilts needlework samplers and the like have benefited greatly from the digital turn in museum and archival work Both institutional online repositories and collections based social media sites have fostered unprecedented access to textile collections that have traditionally been marginalized in museums How can curators interpreters and collections managers make best use of these new opportunities To answer this question the author worked with sites including the Great Lakes Quilt Center at the Michigan State University Museum the Design Center

at Philadelphia University the International Quilt Study Center and Museum at the University of Nebraska Lincoln and the WGBH Boston Media Library and Archives as well as user curated social sites online such as Tumblr and Polyvore to create four compelling case studies on the preservation access curation and interpretation of textile objects The book explores The nature of digital material culture The role of audience participation versus curatorial authority online Audience friendly collections metadata and tagging Visual rather than text based searching and cataloging The legality of ownership and access of museum collections online Gender equity in museums and archives This book is essential reading for anyone who cares for collects exhibits or interprets historic costume or textile collections but its broad implications for the future of museum work make it relevant for anyone with an interest in museum work online And because the focus of this volume is theory and praxis rather than specific technologies that are likely to become obsolete it will be staple on your bookshelf for vears to come "Women and the Material Culture of Needlework and Textiles, 1750?950" MaureenDaly Goggin, 2017-07-05 Rejecting traditional notions of what constitutes art this book brings together essays on a variety of fiber arts to recoup women's artistic practices by redefining what counts as art Although scholars over the last twenty years have turned their attention to fiber arts redefining the conditions practices and products as art there is still much work to be done to deconstruct the stubborn patriarchal art craft binary With essays on a range of fiber art practices including embroidery knitting crocheting machine stitching rug making weaving and guilting this collection contributes to the ongoing scholarly redefinition of women s relationship to creative activity Focusing on women as producers of cultural products and creators of social value the contributors treat women as active subjects and problematize their material practices and artifacts in the complex world of textiles Each essay also examines the ways in which needlework both performs gender and in turn constructs gender Moreover in concentrating on and theorizing material practices of textiles these essays reorient the study of fiber arts towards a focus on process the making of the object including the conditions under which it was made by whom and for what purpose as a way to rethink the fiber arts as social praxis Women and Second Life Dianna Baldwin, Julie Achterberg, 2013-04-30 This collection of new essays explores issues of identity work and play in the virtual world of Second Life SL Fourteen women discuss their experiences Topics include teaching in Second Life becoming an SL journalist and using SL as a means to bring human rights to health care exploring issues of identity and gender such as performing the role of digital geisha playing with gender crossing or determining how identity is formed virtually examining how race is perceived and investigating creativity such as poetry writing or quilting The text is unique in that it represents only women and their experiences in a world that is most often viewed as a man s world Digital Research Methods in Fashion and Textile Studies Amanda Sikarskie, 2020-01-09 Are you a researcher struggling to mine and make sense of a mountain of fashion data Are you interested in learning about how digital methods and tools could enhance your research Have you thought about ways to spark and engage in academic conversations on social media Have you wondered how digital
