A Biographical Dictionary of Dissenting Economists Philip Arestis, Malcolm C. Sawyer, 2001-01-01. Annotation: Government and the Economy David A. Dieterle, Kathleen M. Simmons, 2014-10-14. In this non-biased politically neutral compendium, the authors trace the evolution of the U.S. government's role in the economy, including the history, ideas, key players, and court rulings that influenced its involvement. Today's economic environment is in constant flux, as is the participation of governments in it. Local, state, national, and global governmental agencies have taken on new responsibilities with both positive and negative economic consequences. This book looks at the changing role of American government in the economy, from determining the measurements of economic health to being mindful of corporate sustainability to legislating business practices and consumer affairs. This comprehensive collection of essays draws from the contributions of 25 economic scholars along with seasoned educators David A. Dieterle and Kathleen C. Simmons to examine economic systems and the factors that influence them. The work includes summaries of important Supreme Court cases that have impacted America's economic infrastructure, biographies of famous economists, and descriptions of the seven key economic systems: command, socialism, democratic socialism, fascism, market capitalism, state capitalism, transitional, and welfare state.

Economics David A. Dieterle, 2017-03-27. A comprehensive four-volume resource that explains more than 800 topics within the foundations of economics: macroeconomics, microeconomics, and global economics, all presented in an easy-to-read format. As the global economy becomes increasingly complex, interconnected, and therefore relevant to each individual in every country, it becomes more important to be economically literate to gain an understanding of how things work beyond the microcosm of the economic needs of a single individual or family unit. This expansive reference set serves to establish basic economic literacy of students and researchers, providing more than 800 objective and factually driven entries on all the major themes and topics in economics. Written by leading scholars and practitioners, the set provides readers with a framework for understanding economics as mentioned and debated in the public forum and media. Each of the volumes includes coverage of important events throughout economic history, biographies of the major economists who have shaped the world of economics, and highlights of the legislative acts that have shaped the U.S. economy throughout history. The extensive explanations of major economic concepts, combined with selected key historical primary source documents and a glossary, will endow readers with a fuller comprehension of our economic world.

Luigi L. Pasinetti: An Intellectual Biography Mauro L. Baranzini, Amalia Mirante, 2018-03-18. Luigi L. Pasinetti, born 1930, is arguably the most influential of the second generation of the Cambridge Keynesian School of Economics, both because of his achievements and his early involvement with the direct pupils of John Maynard Keynes. This comprehensive intellectual biography traces his research from his early groundbreaking

contribution in the field of structural economic dynamics to the Pasinetti Theorem With scientific outputs spanning more than six decades 1955-2017 Baranzini and Mirante analyse the impact of his research work and roles at Cambridge the Catholic University of Milan and at the new University of Lugano Pasinetti's whole scientific life has been driven by the desire to provide new frameworks to explain the mechanisms of modern economic systems and this book assesses how far this has been achieved Founder of Modern Economics: Paul A. Samuelson Roger E. Backhouse, 2017-04-11 Founder of Modern Economics offers stimulating insight into a towering figure's influence on economics a discipline and way of thinking that influences business policy making and everyday life *Editing Economists and Economists as Editors* Pascal Bridel, 1992
