**Party Politics in New Democracies** Paul Webb, Stephen White, 2007-09-20 Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics. The General Editors are Professor Alfio Mastropaolo, University of Turin and Kenneth Newton, University of Southampton and Wissenschaftszentrum Berlin. The series is published in association with the European Consortium for Political Research. The sister volume to Political Parties in Advanced Industrial Democracies, this book offers a systematic and rigorous analysis of parties in some of the world's major new democracies. Drawing on a wealth of expertise and data, the book assesses the popular legitimacy, organizational development and functional performance of political parties in Latin America and postcommunist Eastern Europe. It demonstrates the generational differences between parties in the old and new democracies and reveals contrasts among the latter. Parties are shown to be at their most feeble in those recently transitional democracies characterized by personalistic, candidate-centred forms of politics, but in other new democracies, especially those with parliamentary systems, parties are more stable and institutionalized, enabling them to facilitate a meaningful degree of popular choice and control. Wherever party politics is weakly institutionalized, political inequality tends to be greater, commitment to pluralism less certain, clientelism and corruption more pronounced, and populist demagoguery a greater temptation. Without party democracy, its hold is more tenuous.

**Political Parties in New Democracies** Ingrid van Biezen, 2003-07-01 Ingrid van Biezen provides a comprehensive comparative analysis of party formation and organizational development in recently established democracies. She focuses on four democracies in Southern and East Central Europe and addresses political parties from a cross-regional perspective. Featuring a wealth of new information on party organization, this book provides a valuable theoretical and empirical contribution to our understanding of political parties in both old and new democracies.

**Party Patronage and Party Government in European Democracies** Petr Kopecký, Peter Mair, Maria Spirova, 2012-07-26 Party Patronage and Party Government in European Democracies brings together insights from the worlds of party politics and public administration in order to analyze the role of political parties in public appointments across contemporary Europe. Based on an extensive new data gathered through expert interviews in fifteen European countries, this book offers the first systematic comparative assessment of the scale of party patronage and its role in sustaining modern party governments. Among the key findings are: First, patronage appointments tend to be increasingly dominated by the party in public office rather than being used or controlled by the party organization outside parliament. Second, rather than using appointments as rewards as used to be the case in more clientelistic systems in the past, parties are now more likely to emphasize appointments that can help them to manage the infrastructure of government and the state. In this way, patronage becomes an organizational rather than an electoral resource. Third, patronage appointments are increasingly sourced from channels outside of the party, thus helping to make parties look increasingly like network organizations primarily constituted by their leaders and their personal and

Semi-Presidentialism Robert Elgie, 2011-08-25 This book examines the relationship between semi presidentialism and democratic performance Semi presidentialism where a constitution provides for both a directly elected president and a prime minister and cabinet responsible to the legislature has become the regime type of choice for new democracies There are now over 50 countries in the world with a semi presidential constitution and the vast majority of these countries have chosen this form of government since the early 1990s This book operationalises Shugart and Carey s distinction between president parliamentarism where the prime minister is responsible to both the legislature and to the directly elected president and premier presidentialism where the prime minister is responsible to the legislature alone The book shows that all else equal the president parliamentary sub type is more likely to be associated with a poorer democratic performance than its premier presidential counterpart The evidence is based on a mixed method approach including large n comparative statistical studies of all semi presidential democracies since 1919 as well as in depth case studies Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit [www.essex.ac.uk/ecpr](http://www.essex.ac.uk/ecpr)

**Against All Odds** Max Bader, 2025-10-01 As part of a wider democracy promotion effort political parties in Georgia and Ukraine as in most other post communist states have received assistance from a number of non governmental but governmentfunded western organizations for most of the post communist period This assistance however has persistently failed to contribute to making parties in the two former Soviet republics substantially more stable democratic and representative In searching for an answer to why the assistance has not been more effective this thesis looks

both at the nature of the assistance and the particularities of party politics in Georgia and Ukraine The thesis argues that as a consequence of domestic constraints on party development political parties in Georgia and Ukraine were essentially unsuitable as recipients of party assistance and that therefore party assistance was poorly positioned to make an impact

**The Deinstitutionalization of Western European Party Systems** Alessandro Chiaramonte, Vincenzo

Emanuele, 2022-04-18 This book offers a systematic and far reaching account of party system institutionalization in Western Europe Drawing upon a wide array of data and through a comparison of 20 countries from the end of WWII to 2019 across three arenas of party competition electoral parliamentary and governmental ones the empirical analysis shows that over the past decade the level of institutionalization in the Western European party systems has dramatically declined compared with previous decades Electoral parliamentary and in some cases governmental instability and unpredictability have reached record high levels Although the impact of the 2008 Great Recession has certainly worked as a catalyst this process of deinstitutionalization has been mainly driven by long term factors such as cleavage decline and length of democratic experience Moreover its consequences are relevant not only for the relationship between parties and voters but also for the very quality of democracy as party system deinstitutionalization causes a decline in the citizens satisfaction of the way democracy works and even an erosion of the objective democratic standards In a nutshell Western Europe once seen as the land of stability and the cradle of democracy may have become the land of party system deinstitutionalization and incipient democratic backsliding
