New Directions in Print Culture Studies Jesse W. Schwartz,Daniel Worden,2022-06-16 New Directions in Print Culture Studies features new methods and approaches to cultural and literary history that draw on periodicals print culture and material culture thus revising and

rewriting what we think we know about the aesthetic cultural and social history of transnational America The unifying questions posed and answered in this book are methodological How can we make material archival objects meaningful How can we engage and contest dominant conceptions of aesthetic historical and literary periods How can we present archival material in ways that make it accessible to other scholars and students What theoretical commitments does a focus on material objects entail New Directions in Print Culture Studies brings together leading scholars to address the methodological historical and theoretical commitments that emerge from studying how periodicals books images and ideas circulated from the 19th century to the present Reaching beyond national boundaries the essays in this book focus on the different materials and archives we can use to rewrite literary history in ways that highlight not a canon of major literary works but instead the networks dialogues and tensions that define print cultures in various moments and movements

*Women, Science, and Technology* Mary Wyer, Mary Barbercheck, Donna Cookmeyer, Hatice Ozturk, Marta Wayne, 2013-09-11 Women Science and Technology is an ideal reader for courses in feminist science studies This third edition fully updates its predecessor with a new introduction and twenty eight new readings that explore social constructions mediated by technologies expand the scope of feminist technoscience studies and move beyond the nature culture paradigm

Researching Women's Lives From A Feminist Perspective Mary Maynard, June Purvis, 2013-10-11 Women's studies is a rapidly expanding field with a tremendous growth in the number of London courses available As a result of this there has been increasing debate about the nature of feminist research Can a specifically feminist methodology be identified Which research methods are most appropriate in feminist work What is the difference between a feminist approach and other forms of scholarship Researching Women's Lives explores these issues by focusing on the dynamics of doing research rather than engaging in a theoretical discussion about research techniques Feminists are now involved in exploring a whole range of wider issues concerned with practical political and ethical matters in undertaking research In addition to issues such as violence sexuality political activity and popular culture contributors also examine the impact of race class sexual orientation and age      **Perceiving Gender Locally, Globally, and Intersectionally** Vasilikie (Vicky) Demos, Marcia Texler

Segal, 2009-06-26 Addresses questions about how feminist scholars conceptualize gender and view it in relationship to other attributes of individuals and of social systems This book strives for intersectional analyses broadening that approach beyond the gender race and class paradigm to include sexuality employing a variety of methodologies      **Not in This Family** Heather Murray, 2012-02-10 Many Americans hold fast to the notion that gay men and women more often than not have been ostracized from disapproving families Not in This Family challenges this myth and shows how kinship ties were an animating force in gay culture politics and consciousness throughout the latter half of the twentieth century Historian Heather Murray gives voice to gays and their parents through an extensive use of introspective writings particularly personal correspondence

and diaries as well as through published memoirs fiction poetry song lyrics movies and visual and print media Starting in the late 1940s and 1950s *Not in This Family* covers the entire postwar period including the gay liberation and lesbian feminist movements of the 1960s and 1970s the establishment of PFLAG Parents Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents *Not in This Family* also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family

### **Queering Marriage**

Katrina Kimport, 2013-11-21 Over four thousand gay and lesbian couples married in the city of San Francisco in 2004 The first large scale occurrence of legal same sex marriage these unions galvanized a movement and reignited the debate about whether same sex marriage as some hope challenges heterosexual privilege or as others fear preserves that privilege by assimilating queer couples In *Queering Marriage* Katrina Kimport uses in depth interviews with participants in the San Francisco weddings to argue that same sex marriage cannot be understood as simply entrenching or contesting heterosexual privilege Instead she contends these new legally sanctioned relationships can both reinforce as well as disrupt the association of marriage and heterosexuality During her deeply personal conversations with same sex spouses Kimport learned that the majority of respondents did characterize their marriages as an opportunity to contest heterosexual privilege Yet in a seeming contradiction nearly as many also cited their desire for access to the normative benefits of matrimony including social recognition and legal rights Kimport's research revealed that the pattern of ascribing meaning to marriage varied by parenthood status and in turn by gender Lesbian parents were more likely to embrace normative meanings for their unions those who are not parents were more likely to define their relationships as attempts to contest dominant understandings of marriage By posing the question can queers queer marriage Kimport provides a nuanced accessible and theoretically grounded framework for understanding the powerful effect of heterosexual expectations on both sexual and social categories

### **International Refugee Law**

H?ne Lambert, 2017-07-05 The essays selected and reproduced in this volume explore how international refugee law is dynamic and constantly evolving From an instrument designed to protect mostly those civilians fleeing the worse excesses of World War II the 1951 Refugee Convention has developed into a set of principles customary rules and values that are now firmly embedded in the human rights framework and are applicable to a far broader range of refugees In addition international refugee law has been affected by international humanitarian law and international criminal law and vice versa Thus there is a reinforcing dynamic in the development of these complementary areas of law At the same time in recent decades states have shown a renewed interest in managing migration thereby raising issues of how to reconcile such interests with refugee protection principles In addition the emergence of concepts of

participation and responsibility to protect promise to have an impact on international refugee law

**Women and New Hollywood** Aaron Hunter, Martha Shearer, 2023-05-12 The 1970s has often been hailed as a great moment for American film as a generation of New Hollywood directors like Scorsese Coppola and Altman offered idiosyncratic visions of what movies could be Yet the auteurist discourse hailing these directors as the sole authors of their films has obscured the important creative roles women played in the 1970s American film industry *Women and New Hollywood* revises our understanding of this important era in American film by examining the contributions that women made not only as directors but also as screenwriters editors actors producers and critics Including essays on film history film texts and the decade's film theory and criticism this collection showcases the rich and varied cinematic products of women's creative labor as well as the considerable barriers they faced It considers both women working within and beyond the Hollywood film industry reconceptualizing New Hollywood by bringing it into dialogue with other American cinemas of the 1970s By valuing the many forms of creative labor involved in film production this collection offers exciting alternatives to the auteurist model and new ways of appreciating the themes and aesthetics of 1970s American film

*The Religious Left in Modern America* Leilah Danielson, Marian Mollin, Doug Rossinow, 2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women's spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists

Caring Democracy Joan C. Tronto, 2013-04-12 Americans now face a caring deficit there are simply too many demands on people's time for us to care adequately for our children elderly people and ourselves At the same time political involvement in the United States is at an all time low and although political life should help us to care better people see caring as unsupported by public life and deem the concerns of politics as remote from their lives *Caring Democracy* argues that we need to rethink American democracy as well as our fundamental values and commitments from a caring perspective The idea that production and economic life are the most important political and human concerns ignores the reality that caring for ourselves and others should be the highest value that shapes how we view the economy politics and institutions such as schools and the family Care is at the center of our human lives but Tronto argues it is currently too far removed from the concerns of politics *Caring Democracy* traces the reasons for this disconnection and argues for the need to make care not economics the central concern of democratic political life Joan C

Tronto is a Professor in the Political Science Department at the University of Minnesota She is the author of *Moral Boundaries A Political Argument for an Ethic of Care* Routledge

*When Women Ask the Questions* Marilyn Jacoby Boxer,2001-09-28 In *When Women Ask the Questions* Marilyn Boxer traces the successes and failures of women s studies examines the field s enduring impact on the world of higher education and concludes that the rise of women s studies has challenged the university in the same way that feminism has challenged society at large Drawing on her experiences as a historian feminist academic administrator and former chair of a women s studies program Boxer observes that by working for justice and for changes necessary to make the attainment of justice a practical possibility women s studies ensures that women are heard in the processes and places where knowledge is created taught and preserved The intellectual transformation behind the emergence of women s studies Boxer concludes is one of historic proportions Like other great moments in human experience it has given rise to a flowering of art literature and science and to the challenging of previously accepted authorities of text and tradition

*Making Sense of Race, Class, and Gender* Celine-Marie Pascale,2013-02-01 Using arresting case studies of how ordinary people understand the concepts of race class and gender Celine Marie Pascale shows that the peculiarity of commonsense is that it imposes obviousness that which we cannot fail to recognize As a result how we negotiate the challenges of inequality in the twenty first century may depend less on what people consciously think about difference and more on what we inadvertently assume Through an analysis of commonsense knowledge Pascale expertly provides new insights into familiar topics In addition by analyzing local practices in the context of established cultural discourses Pascale shows how the weight of history bears on the present moment both enabling and constraining possibilities Pascale tests the boundaries of sociological knowledge and offers new avenues for conceptualizing social change In 2008 *Making Sense of Race Class and Gender* was the recipient of the Distinguished Contribution to Scholarship Book Award of the American Sociological Association Section on Race Gender and Class for distinguished and significant contribution to the development of the integrative field of race gender and class
