Discerning Life with Dreams: The Triadic Relationships Between Dreams, Discernment, and Spiritual

Intelligence B. Anne Frey, 2008-01-23 This study explored the relationship between dreams discernment and spiritual intelligence. It focused on the experience of people who use dreams to help them with spiritual discernment or decision making in a spiritual context. A case study methodology included questionnaires, personal dream records and interviews to understand the seven participants' experiences of exploring their dreams for guidance. Participants were self-selected by answering an ad seeking people whose dreams had helped them to make a decision, who journaled their dreams and who consider themselves to be spiritual. Most participants reported being drawn to dreamwork by a significant life experience. While participants shared different perceptions as to what discernment consists of, each participant reported that dreams helped them to grow spiritually. A number of outcomes were exemplified, falling into two main groupings: a) the use of discernment in order to understand a dream, whether or not they ended up reaching a resolution or making a decision about the dream; and b) the use of dreams as part of a discernment process, whether or not the dreams helped them to resolve their discernment issue or make a decision. The intensity of emotion attached to an issue seemed for some to render it more difficult to arrive at particular decisions. For others, dreams seemed to ease the burden of discernment or decision making by raising their degree of confidence towards their resolution or decision. Deepening appreciation of and growing desire for living spiritually and learning more about spirituality were indicators of a developing spiritual intelligence. For most, spiritual growth occurred through knowledge or learning gained from their dreams. For some, their belief about God's role in their life impacted their experience of the Divine in their dreams. Finally, the study showed that individuals are not always aware of what had helped them, suggesting a subconscious process at work in both discernment and decision making. The study affirmed a triadic link between dreams, discernment and spiritual intelligence among people involved in spiritual dreamwork. It demonstrated ways by which the discernment process can build confidence in people who are turning to their dreams for guidance in a spiritual context.

Inner Knowing Helen Palmer, 1998-12-28 Inner Knowing illustrates that the human mind possesses the capability to consistently function at significantly high levels of perception, creativeness and intuitiveness. Indeed, everyone has at one time in his life experienced a sense of mindful clarity that led to a Eureka moment. In this latest addition to Tarcher's successful New Consciousness Reader series, Helen Palmer, author of The Enneagram, has compiled a collection of writings that explore such abilities and illustrate how they can be developed. Essays on exercising the mind, understanding synchronicity, experiencing flow, establishing communication between the conscious and subconscious, utilizing the active imagination, listening to the body's feedback and witnessing psychic displays of walking on fire, clairvoyance and similar phenomena make up this enlightening, thought-provoking and fascinating anthology. Contributors include Bruno Bettelheim, Jean Shinoda Bolen, Sylvia Boorstein, Pema Chodron, Mihaly Csikszentmihalyi, Betty Edwards, Erich Fromm, Daniel Goleman, Aldous Huxley, Carl Jung, Jack Kornfield, J. Get Conscious Ali Walker, Dr., 2017-05-02 In ancient times most people believed that if you travelled far enough to the edge of the world you would fall off This was a mirage that limited their lives Today the mirage that we all live by is the idea that I will be happy when I will be happy when I am married I will be happy when I leave my job I will be happy when I am rich I will be happy when I am on holidays This belief leads to us over thinking and over analyzing all the ways that we might be happier at some point in the future But what if happiness is the wrong aim What if happiness is like the horizon an imaginary line that seems real until we start to chase it In this book Ali Walker shows that instead of seeking happiness in the future we can all practice awareness in each moment This is how we train ourselves to generate calming positive and uplifting thoughts and emotions Drawing on the author's research in psychology and her work with clients Get Conscious breaks down the four elements of self awareness and provides strategies for mastering each Feel Honor all emotions Think Choose positive thoughts Sense Trust the messages of your body Act Go with the flow of life and love Includes case studies rituals exercises and activities to help you tune into your inner being and let self awareness guide you to genuine happiness Get Conscious moves us out of overthinking and into awareness It is the transformation of a lifetime
