Pathway To Sustainability Defining The Bounds On Forest Management:

Pathway to Sustainability John Fedkiw, Douglas W. MacCleery, V. Alaric Sample, 2004 The progress of forest management in the United States A broad and bounded path that leads us to the goal of sustainability Or a tree that branches as it grows Or chaos Four noted scholars offer their views on the evolution of forestry Hal Salwasser dean and director of the forest research laboratory at Oregon State University s College of Forestry poses provocative questions about the nature of forestry as the discipline seeks to meet society s needs while conserving the resource John Fedkiw senior policy adviser and analyst for USDA Secretary s Office for 28 years believes the same pathway that has led forestry through the thickets of multiple use and ecosystem management can now take us to our new goal sustainability Douglas W MacCleery senior policy analyst in forest and rangeland management for the National Forest System finds reason for optimism in the record of the past where he sees evidence that forestry can meet its latest challenge V Alaric Sample president of the Pinchot Institute for Conservation cautions that conserving biodiversity will require new approaches and adjustment of our course along the pathway These papers enlighten and illuminate sustainability both as a dynamic goal and a dynamic process and outline the challenges it presents to society it s policy makers and forest managers They help us to understand sustainability in its political dimensions and to approach sustainability systematically as a dynamic integrative societal process on the land

Foundations of Environmental Sustainability Larry Rockwood, Ronald Stewart, Thomas Dietz, 2008-06-04 This book reviews and analyzes the period roughly from the 1950s to the present when the environment became an issue as important as economic growth or war and peace to assess the current situation and begin planning for the challenges that lie ahead Most people are aware of both the environmental destruction taking place around the world and of the specter of climate change The devastation of New Orleans by hurricane Katrina illustrates the potential for disaster when climate change is combined with the mismanaged environmental policy How did we get to this point What has been done and what can be done to avoid future environmental disasters Thirty two contributing chapter authors among them one of the principal drafters of the National Environmental Policy Act Chief of the African Environment Division and the World Bank Vice President of the Center for Conservation Innovation at the World Wildlife Fund President of the Zoological Society of London former President of the Ecological Society of America use their unique authoritative perspective to review the evolution of environmental science and policy in the past half century Each author describes the evolution of environmental science and policy in the past half century and consider the challenges of the future Although the authors of this book come from various fields they have followed paths that have generally converged on the concept of sustainability This book attempts to define what sustainability is how we can achieve it and what the prospects for sustainability in the future are

Perspectives on Sustainable Resources in America Roger A. Professor Sedjo, 2010-09-30 The vast size of the United States and extensive variation of its climate topography and biota across different regions contribute to both the richness of the nation s natural

heritage and the complexities involved in managing its resources A follow up to RFF's popular America's Renewable Resources 1990 Perspectives on Sustainable Resources in America updates readers about the current challenges involved in managing America's natural resources especially in light of the increasing emphasis on sustainability and ecosystem approaches to management Written to inform general audiences and students as well as to engage the interest of experts the book includes assessments by some of the nation's most renowned scholars in natural resource economics and policy An introductory chapter critically examines the concept of sustainability as it has been developed in recent years and asks how the concept might apply to individual resource systems It considers the interrelatedness of ecosystem economic and social sustainability the paradigms of resource sufficiency and functional integrity and the contrast between weak and strong sustainability The chapters that follow examine America's experience with forests water agricultural soils and wildlife Highlighting the adaptability and resilience of resource systems each chapter provides a description of the physical characteristics of the resource a history of its use a policy history and a review of ongoing debates in management and policy Perspectives on Sustainable Resources in America concludes with an innovative treatment of biodiversity as a natural resource The chapter reviews the definitions of biodiversity the ecological and economic meanings of biodiversity and current efforts to preserve biodiversity especially through regulatory approaches

From the Forest to the Sea - Public Lands Management and Marine Spatial Planning Morgan Gopnik, 2015-01-09 The management of common pool resources and publicly owned areas is fraught with difficulty This book explores the long complex and frequently contentious history of public lands management in the United States in order to draw lessons for the emerging field of marine spatial planning MSP The author first establishes that these two seemingly different settings are in fact remarkably similar drawing on established theories of policy analysis The work then examines the management of US National Forests over the past 120 years including three place based case studies to discover recurring themes The analysis shows how different management approaches evolved over time in response to changing laws and cultural norms producing outcomes favored by different constituencies This history also reveals the ambiguities and contradictions inherent in multiple use management of any public space Next the book analyzes recent efforts to advance MSP both in the US and globally showing how they mirror past experiences in National Forest management including similar disagreements among stakeholders In conclusion the author suggests how those within ocean related sectors government academia industry and environmental groups might achieve their individual and collective goals more effectively based on lessons from the public lands setting

Patterns and Processes in Forest Landscapes Raffaele LaFortezza, Jiquan Chen, Giovanni Sanesi, Thomas R. Crow, 2008-08-30 Increasing evidence suggests that the composition and spatial configuration the pattern of forest landscapes affect many ecological processes including the movement and persistence of particular species the susceptibility and spread of disturbances such as fires or pest outbreaks and the redistribution of matter and nutrients Understanding these issues is key to the successful management of complex

multifunctional forest landscapes and landscape ecology based on a foundation of island bio geography and meta population dynamic theories provides the rationale to deal with this pattern to process interaction at different spatial and temporal scales This carefully edited volume represents a stimulating addition to the international literature on landscape ecology and resource management It provides key insights into some of the applicable landscape ecological theories that underlie forest management with a specific focus on how forest management can benefit from landscape ecology and how landscape ecology can be advanced by tackling challenging problems in forest landscape management It also presents a series of case studies from Europe Asia North America Africa and Australia exploring the issues of disturbance diversity management and scale and with a specific focus on how human intervention affects forest landscapes and in turn how landscapes influence humans and their culture An important reference for advanced students and researchers in landscape ecology conservation biology forest ecology natural resource management and ecology across multiple scales the book will also appeal to researchers and practitioners in reserve design ecological restoration forest management landscape planning and landscape architecture

Seeking the Greatest Good Char Miller, 2013-09-22 President John F Kennedy officially dedicated the Pinchot Institute for Conservation Studies on September 24 1963 to further the legacy and activism of conservationist Gifford Pinchot 1865 1946 Pinchot was the first chief of the United States Forest Service appointed by Theodore Roosevelt in 1905 During his five year term he more than tripled the national forest reserves to 172 million acres A pioneer in his field Pinchot is widely regarded as one of the architects of American conservation and an adamant steward of natural resources for future generations Author Char Miller highlights many of the important contributions of the Pinchot Institute through its first fifty years of operation As a union of the United States Forest Service and the Conservation Foundation a private New York based think tank the institute was created to formulate policy and develop conservation education programs Miller chronicles the institution s founding a donation of the Pinchot family at its Grey Towers estate in Milford Pennsylvania He views the contributions of Pinchot family members from the institute s initial conception by Pinchot s son Gifford Bryce Pinchot through the family s ongoing participation in current conservation programming Miller describes the institute s unique fusion of policy makers scientists politicians and activists to increase our understanding of and responses to urban and rural forestry water quality soil erosion air pollution endangered species land management and planning and hydraulic fracturing Miller explores such innovative programs as Common Waters which works to protect the local Delaware River Basin as a drinking water source for millions EcoMadera which trains the residents of Cristobal Col n in Ecuador in conservation land management and sustainable wood processing and the Forest Health Human Health Initiative which offers health care credits to rural American landowners who maintain their carbon capturing forestlands Many of these individuals are age sixty five or older and face daunting medical expenses that may force them to sell their land for timber Through these and countless other collaborative endeavors the Pinchot Institute has continued to advance its namesake s ambition to protect ecosystems for future generations and provide vital environmental services in an age of a burgeoning population and a disruptive climate

Forest History Today, 2000 *Nature Wars* Jim Sterba, 2013-11-12 For four hundred years explorers traders and settlers plundered North American wildlife in an escalating rampage but in the twentieth century an incredible turnaround took place Conservationists created wildlife sanctuaries restored habitats and imposed regulations on hunters and trappers Over decades they nursed many wild populations back to health Then after World War II something happened that conservationists hadn t foreseen sprawl People moved into suburbs and then kept moving outward All the

while well meaning efforts to protect animals allowed wild populations to burgeon out of control causing damage costing billions degrading ecosystems and touching off disputes that polarized communities The result is a mix of people and wildlife that should be an animal lover s dream but often turns into a sprawl dweller s nightmare Deeply researched eloquently written and perceptively humorous *Nature Wars* expresses the need for organic reconnection with our natural ecosystem by offering a provocative look at how Americans created an inadvertent mess

Gallatin National Forest (N.F.), Taylor Fork Timber Sale and Road Restoration ,1998

Ground Work Char Miller,2007 *Ground Work* offers intriguing insights into American conservation history Miller demonstrates his remarkable ability as a historian to cast new light on familiar events and figures such as Bernhard Fernow and Gifford Pinchot and create a deeper and richer understanding of their significance both in their times and in our own *Ground Work* is a series of vignettes rather than a chronologically continuous tale It spans topics from the Progressive Era roots of the American conservation movement on which Miller has proven his virtuosity in earlier works such as *Gifford Pinchot and the Making of Modern Environmentalism* to new insights into the impact of documentary films on the environmental perceptions of 21st century urban America

Advanced undergraduate and graduate courses in environmental and forest history will find these essays stimulating general nonfiction readers very enlightening
