Moments Geoff Kemp, 2014-11-20 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com Censorship in varying forms has been part of human experience for 2 500 years and has proved itself to be a recurring presence for political thought whether as active repression a shaping context for expression or as itself a subject for analysis and argument From the death of Socrates to the fatwa against Salman Rushdie attempts to silence thinkers and writers have provoked passionate and often penetrating responses that speak of their historical moment Censorship Moments will provide short accessible and stimulating access to a variety of these responses Each chapter will couple a short textual moment of writing on censorship and freedom of expression by a past writer with analysis by an expert current scholar The book's main focus is the public political dimension of censorship in its relation to political authority and political thought while also reflecting on the porous boundary to literature and other areas such as law and the media Democratic Moments Xavier Márquez, 2018-02-08 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com This collection of short essays on texts in the history of democracy shows the diversity of ideas that contributed to the making of our present democratic moment The selection of texts goes beyond the standard Western centric canonical history of democracy with its beginnings in ancient Athens and its climax in the French and American revolutions recovering some of the significant body of democratic and anti democratic thought in Latin America Asia and elsewhere It includes discussions of well known philosophers like Plato and Aristotle but also of a variety of thinkers much less well known in English as writers on democracy Al Farabi Bolivar Gandhi Radishchev Lenin Sun Yat sen and many others The essays thus de center our understanding of the moments where the idea of democracy was articulated rejected and appropriated Spanning antiquity to

Democracy and Anti-Democracy in Early Modern England 1603-1689 Cesare Cuttica, Markku Peltonen, 2019-07-18 Listen to the podcast here This cross disciplinary collection of essays examines for the first time and in detail the variegated notions of democracy put forward in seventeenth century England It thus shows that democracy was widely explored and debated at the time that anti democratic currents and themes have a long history that the seventeenth century is the first period in English history where we nonetheless find positive views of democracy and that whether early modern writers criticised or advocated it these discussions were important for the subsequent development of the concept and practice democracy By offering a new historical account of such development the book provides an

innovative exploration of an important but overlooked topic whose relevance is all the more considerable in today's political debates civic conversation academic arguments and media talk Contributors include Camilla Boisen Alan Cromartie Cesare Cuttica Hannah Dawson Martin Dzelzainis Rachel Foxley Matthew Growhoski Rachel Hammersley Peter Lake Gaby Mahlberg Markku Peltonen Edward Vallance and John West **Republicanism and Democracy** Skadi Siiri Krause, Dirk

Jörke, 2022-11-28 This book discusses whether democracy and republicanism are identical complementary or contradicting ideas The rediscovery of classic republicanism a few decades ago made it clear how profoundly modern notions of democracy had been shaped by the republican tradition But defining these two concepts remains difficult and the views diverge widely The overarching aim of this book is to discuss the extent to which democracy and republicanism are identical complementary or mutually contradicting ideals ideas Pursuing this open approach to the subject means calling into question a widely used formula according to which modern democracy is composed of liberal principles such as individualism the rule of law and human rights on the one hand and of republican principles such as focusing on the common good and popular sovereignty on the other This book will appeal to students researches and scholars of political science interested in a better understanding of political theory and political history Cultural Politics--Queer Reading Alan Sinfield, 2015-10-09 Was Shakespeare gay Is

The Merchant of Venice anti Semitic How does mainstream reading differ from that of subcultural groups In this lively and readable book Alan Sinfield challenges the assumptions of English literature and investigates the principles and practices that may inform lesbian and gay reading *Back Over the Sexual Contract* Lorenzo Rustighi, 2021-12-27 Is patriarchy an illness of democratic societies or a structural problem To answer this dilemma Back Over the Sexual Contract A Hegelian Critique of Patriarchy examines the dilemma of patriarchy in modern European political theory by reopening the question of the sexual contract Through a study of the thought of Thomas Hobbes John Locke Jean Jacques Rousseau and Immanuel Kant Lorenzo Rustighi argues that the conceptual roots of male patriarchal entitlement should be sought in the logic of authorized power that underpins the modern understanding of both the state and the family Challenging the mainstream distinction between the private and the public Rustighi provocatively suggests that patriarchy is not something that undermines democracy as an alien threat but is rather inscribed in the intrinsically anti democratic effects of the concept of democracy construed by the modern rationale of the social contract He puts forward a Hegelian argument to propose an unconventional constitutional approach to feminist political theory that helps us rethink democracy beyond its inherent impasses *The*

[In Defiance of History](#) Victoria Leonard, 2022-02-16 This volume offers a counterbalance to the dismissal that Orosius s Histories Against the Pagans has suffered in most recent criticism Orosius is traditionally considered to be a mediocre scholar and an essentially worthless historian This book takes his literary endeavour seriously recognizing the unique contribution the Histories made at a crucial moment of debate and uncertainty where the present was shaped by restructuring the past The significance of the Histories is recognised intrinsically rather than only in comparison with other texts and authors principally Augustine of Hippo Orosius s mentor The approach of the book is historiographical exploring the form purpose and meaning of the Histories The themes of divine providence monotheism and imperial authority are examined and the subjects of war and the sack of Rome receive extended analysis The book foregrounds Orosius s significant historiographical innovations that are seldom explored such as the subversion of imperial history within a Christian spectrum in the synchronization of the emperor Augustus and Christ Each chapter contributes to the progression of knowledge about Orosius s Histories and the wider literary and historiographical culture of disruption that characterised the late fourth and early fifth centuries CE

[Seeing Films Politically](#) Mas'ud Zavarzadeh, 1991-01-01 In this bold political rethinking of contemporary film theory Zavarzadeh overturns the dominant concepts that fetishize film as a work of art or simple entertainment He demonstrates how aesthetic notions obscure the ideological effects produced by viewing films particularly the production of the spectator as the subject of social class Seeing films he argues is part of the political struggle over cultural intelligibilities subjectivities and representations One of the book s analytical innovations is its concept of renarrating a reading strategy that displays the logic of the film showing that it is not so much a unique aesthetic articulation as it is the common logic of the dominant ideology In a series of brilliant readings of recent films the book constructs a critical space for the reader to not only see the culturally visible tale of the film the one that legitimates the existing reality the status quo but also to see the other suppressed tale that de narrates the social

contradictions arising from exploitation and class rule *Political Physics* John Protevi, 2001-08-01 *Political Physics* analyses the work of two of the most influential thinkers of our time Jacques Derrida and Gilles Deleuze The book takes the reader on a transversal journey crossing the boundaries of philosophy and science *Political Physics* explores the limits and strengths of Derridean and Deleuzian philosophical approaches Focussing on their differing approaches to the question of the body politic in all its registers from the physical chemical body to the economic the social and the political body the book reveals a profound difference in ontological commitment The book argues that the straightforward materialism of Deleuzian philosophy can operate across the range of analysis whereas Derridean deconstruction effectively operates at the level of reason consciousness and culture Cross cutting a Derridean analysis of the history of philosophy with a Deleuzian approach to creative dialogue and complexity theory *Political Physics* illuminates the value of both approaches to the analysis of contemporary culture politics and science and to the rereading of the history of ideas **In the Name of the Father** Francois Furstenberg, 2007-04-24 In this revelatory and genuinely groundbreaking study Francois Furstenberg sheds new light on the genesis of American identity Immersing us in the publishing culture of the early nineteenth century he shows us how the words of George Washington and others of his generation became America's sacred scripture and provided the foundation for a new civic culture one whose reconciliation with slavery unleashed consequences that haunt us still A dazzling work of scholarship from a brilliant young historian *In the Name of the Father* is a major contribution to American social history **Faith and Public Life** Alfred Sebahene, 2025-05-31 God's love in Jesus Christ for the salvation and recreation of all things is still the hope of the world This Christian affirmation is the reality that holds all things and holds all things together Yet in today's world it is easy to understand why the church is in pain and declining in its Christian and moral influence *Rethinking Church in the 21st Century* is the culmination of three years of exploration into the condition of the church around the world today Bringing together a diverse community of Christian voices these essays offer reflections and admonitions to ignite the hearts of pastors and leaders during the dynamic vulnerable and hopeful times we face In this third volume the contributors explore how the church should be engaged in the public space in the face of the new opportunities and fundamental challenges confronting the global church today These realities missional expansion persistent barriers to human progress shifts in the composition and centre of gravity of world Christianity and a growing attention to the need for the church to embrace a radically different way of life call for a new approach to the role of faith in our public life to the different ways of witnessing to Christ and stewarding the mysteries of Christian faith With solid grounding in Scripture and critical reflection for authentic Christian public witness and mission this book speaks of how the gospel of Jesus Christ endlessly relates to the whole world and its reconciliation with God Film As Ethnography Peter Ian Crawford, David Turton, 1992-11-15 This work examines the reasons why anthropologists have not used the camera as a research instrument or film as a means of communicating ethnographic knowledge It suggests that images and words in this discipline operate on

different logical levels that they are hierarchically related that whereas writings may encompass the images produced by film the inverse of this cannot be true The author argues for this position further by suggesting that the visual is to the written mode as thin description giving a record of the form of behaviour is to thick description giving an account of meaning
