likewise shows how zombiedom has manifested particularly in American gun culture and how this relates to the growth of a large scale citizens activist movement in favor of gun rights Also included are practical tips on how to stay out of the clutches of zombiedom Zombology is more than just a book about zombies however The zombie for Patrick is a peculiarly Western phenomenon and as such he examines how it can be seen as a manifestation of not so abstract forces battling for the future of our civilization will collectivization or the individual dream or reality win out Patrick offers his own diagnosis At the very least the zombie adds some much needed psychic contrast to the cold to the grey and to the unending It also provides a face albeit necrotic to the seemingly impersonal sociological forces that undermine the West for in a near perfect correspondence with the zombie the West itself appears to be necrotic in a galloping way Both need brains to ease the pain p 48 **Weekly World News** ,1999-08-17 Rooted in the creative success of over 30 years of supermarket tabloid publishing the Weekly World News has been the world s only reliable news source since 1979 The online hub www.weeklyworldnews.com is a leading entertainment news site **How to Survive the End of the World as We Know It** James Wesley, Rawles,2009-09-30 Read James Wesley Rawles s posts on the Penguin Blog In the vein of Sam Sheridan s The Disaster Diaries a comprehensive guide to preparing for the apocalypse With the recent economic crisis formerly unimaginable scenarios have become terrifyingly real possibilities learn how to prepare for the worst Global financial collapse a terrorist attack a natural catastrophe all it takes is one event to disrupt our way of life We could find ourselves facing myriad serious problems from massive unemployment to a food shortage to an infrastructure failure that cuts off our power or water supply If something terrible happens we won t be able to rely on the government or our communities We ll have to take care of ourselves In How to Survive the End of the World as We Know It James Rawles founder of SurvivalBlog.com clearly explains everything you need to know to protect yourself and your family in the event of a disaster from radical currency devaluation to a nuclear threat to a hurricane Rawles shares essential tactics and techniques for surviving completely on your own including how much food is enough how to filter rainwater how to protect your money which seeds to buy for your garden why goats are a smart choice for livestock and how to secure your home It s the ultimate guide to total preparedness and self reliance in a time of need **The Utopia Reader, Second Edition** Gregory Claeys,Lyman Tower Sargent,2017-02-14 The Utopia Reader compiles primary texts from a variety of authors and movements in the history of theorizing utopias Utopianism is defined as the various ways of imagining creating or analyzing the ways and means of creating an ideal or alternative society Prominent writers and scholars across history have long explored how or why to envision different ways of life The volume includes texts from classical Greek literature the Old Testament and Plato s Republic to Sir Thomas More s Utopia to George Orwell s Nineteen Eighty Four and beyond By balancing well known and obscure examples the text provides a comprehensive and definitive collection of the various ways Utopias have been conceived throughout history and how Utopian ideals have served as criticisms of existing sociocultural conditions This new edition includes many historically

Survival and Resistance in Evangelical America Crawford Gribben,2021-02-23 Over the last thirty years conservative evangelicals have been moving to the Northwest of the United States where they hope to resist the impact of secular modernity and to survive the breakdown of society that they anticipate These believers have often given up on the politics of the Christian Right adopting strategies of hibernation while developing the communities and institutions from which a new America might one day emerge Their activity coincides with the promotion by prominent survivalist authors of a program of migration to the American Redoubt a region encompassing Idaho Montana parts of eastern Washington and Oregon and Wyoming as a haven in which to endure hostile social change or natural disaster and in which to build a new social order These migration movements have independent origins but they overlap in their influences and aspirations working in tandem to offer a vision of the present in which Christian values must be defended as American society is rebuilt according to biblical law This book examines the origins evolution and cultural reach of this little noted migration and considers what it might tell us about the future of American evangelicalism Drawing on Calvinist theology the social theory of Christian Reconstruction and libertarian politics these believers are projecting significant soft power Their books are promoted by leading mainstream publishers and listed as New York Times bestsellers Their strategy is gaining

momentum making an impact in local political and economic life while being repackaged for a wider audience in publications by a broader coalition of conservative commentators and in American mass culture This survivalist evangelical subculture recognizes that they have lost the culture war but another kind of conflict is beginning **Back to America** William H. Westermeyer, 2019-11-01 Back to America is an ethnography of local activist groups within the Tea Party one of the most important recent political movements to emerge in the United States and one that continues to influence American politics Though often viewed as the brainchild of conservative billionaires and Fox News the success of the Tea Party movement was as much if not more the result of everyday activists at the grassroots level William H Westermeyer traces how local Tea Party groups LTPGs create submerged spaces where participants fashion action oriented collective and personal political identities forged in the context of cultural or figured worlds These figured worlds allow people to establish meaningful links between their own lives and concerns on the one hand and the movement's goals and narratives on the other Collectively the production and circulation of the figured worlds within LTPGs provide the basis for subjectivities that often nurture political activism Westermeyer reveals that LTPGs are vibrant and independent local organizations that while constantly drawing on nationally disseminated cultural images and discourses are far from simple agents of the larger organizations and the media Back to America offers a welcome anthropological approach to this important social movement and to our understanding of grassroots political activism writ large **The Free American!** , 2003 *PREPPERS: HISTORY AND THE CULTURAL PHENOMENON* Lynda King, 2014-08-07 The word prepper seems to have burst onto the scene within the last 10 years and has increasingly become associated with fringe extremists They have been labeled by some as domestic terrorists But is prepping a new phenomenon Or is it a manifestation of a growing collective psyche that has learned from traumatic events throughout our history that preparedness is critical to human survival For new preppers who think the worst is yet to come this book offers a walk through history that shows the worst has been here before For those who wonder why so many people are concerned about being prepared this book will show that when the worst has made an appearance those who weathered it best were those who were prepared For those already familiar with history's worst who think THAT will never happen again this book offers a reminder of the Wall Street adage Past performance is no guarantee of future results For those who wonder what a prepper is this book offers a look at what they used to be and what they are today The Separation of Church and State Stephen Strehle, 2001 This book challenges the notion that one can divorce religion from politics The author contends that inalienable rights grew out of the western religious tradition of natural law egalitarianism out of the universal scope of the Christian Gospel democracy out of the polity of Puritan congregations capitalism out of the Protestant work ethic From a philosophical point of view it is impossible to separate religious and political ideals Human beings cannot live in self sufficient autonomy God is over all in all and through all The Growth-Environment Debate Ryan M. Katz-Rosene, 2025-03-12 In this timely book Ryan M Katz Rosene expertly explains the origins and evolution of the great

debate on the growth environment relationship He illustrates how some thinkers see economic growth as the best means to achieve sustainability while others see growth as the cause of humanity's present ecological crisis *End of Days* Karolyn Kinane, Michael A. Ryan, 2014-01-10 The idea of the complete annihilation of all life is a powerful and culturally universal concept As human societies around the globe have produced creation myths so too have they created narratives concerning the apocalyptic destruction of their worlds This book explores the idea of the apocalypse and its reception within culture and society bringing together 17 essays that explore both the influence and innovation of apocalyptic ideas from classical Greek and Roman writings to the foreign policies of today's United States
