*James Cameron* Adam Barkman, Antonio Sanna, 2018-10-26 This book offers a comprehensive academic and detailed study of the works of James Cameron whose films include successful productions such as the first two Terminator films 1984 91 Aliens 1986 Titanic 1997 and Avatar 2009 but also lesser known films such as Piranha 2 The Spawning 1981 The Abyss 1989 and True Lies 1994 and a series of documentaries on the depths of the ocean or on the tomb of Christ Cameron s major productions have an immense and enduring popularity throughout the globe and have attracted both public and critical attention This volume investigates several distinct areas of Cameron s works and addresses the different approaches and topics invited by the multidimensionality of the subject itself the philosophical the artistic the socio cultural and the personal The methodologies adopted by the contributors differ significantly from each other thus offering the reader a variegated and compelling picture of Cameron s oeuvre Contrary to the numerous volumes published in the past on the subject each chapter offers specific case studies that have been previously ignored or only partially mentioned by other scholars      **Foundations**

Porter, 2017-09-25 The inaugural lecture is a tradition that has been practiced in western universities for centuries These lectures originated in the great universities of continental Europe spread to Great Britain and then to North America The tradition has now been appropriated further by universities around the world and especially of late in majority world countries The inaugural lecture is a form of academic discourse in which the recipient of a suitable academic honor usually the bestowal of a form of professorial appointment offers a public lecture in recognition of the event McMaster Divinity College follows in this academic tradition by attaching public inaugural lectures to the appointment of scholars to professorial positions and in particular to those appointed to endowed and named professorial chairs within the institution

McMaster Divinity College currently has six such endowed named chairs held by its faculty This volume contains the six lectures by those in these six chairs representing the fields of preaching theology pastoral studies Christian worldview ministry studies and Christian history Each of these inaugural lectures is a contribution to scholarship in the field and a token of the inaugural professorial lecture

**Text and History** Jens Bruun Kofoed, 2005-06-30 During the past two or three decades the value of the text of the Hebrew Bible as a testimony to the history of Israel has come under siege As the date of the final form of the text has been pushed later and later often into the Hellenistic era the text has been devalued accordingly what is late is viewed as having less value At the same time the connection between the text and extratextual information particularly from archaeology has been rendered less and less clear by both archaeological investigation itself and an increasing inability to connect text and artifact or to do so compellingly Some of the foremost scholars who have argued that the biblical text contributes little to historical research have come from Copenhagen Now from Copenhagen Jens Bruun Kofoed steps forward to address the methodological issues that must lie behind the use of the biblical text and its validation as a source for historical information In this volume he sets out the methodological stepping stones necessary to an honest use of the biblical text and through discussion of presuppositions underlying various methodologies and by evaluating specific test cases shows among other things that lateness of the extant text by itself is not a charge that reduces the text's value as a source of historical information that taking modern genre research and authorial intent into account opens new vistas for evaluating the historiographical reliability of ancient texts and that a way forward from the current impasse is possible

*Claude Simon* Alastair B. Duncan, 1994 This study of Claude Simon proposes a reading of Simon's work based on the premise that his novels are as much written adventures as adventures in language Special attention is paid to the major novels of the 1980s *The Georgics* and *The Acacia* Simon's development is set in the context of the intellectual and critical debates in which his novels were written and first read from Jean Ricardou's formalism to post structuralism intertextuality and psychoanalytic theory

*Understanding the History of Ancient Israel* H. G. M. Williamson, 2007-10-25 In popular presentation some treat the Bible as a reliable source for the history of Israel while others suggest that archaeology has shown that it cannot be trusted at all This volume debates the issue of how such widely divergent views have arisen and will become an essential source of reference for the future

*The Theology of Dallas Willard* Gary Black, 2013-08-06 Evangelical Christianity in the United States is currently in a dramatic state of change Yet amidst this sometimes tumultuous religious environment a rather unique blend of both ancient and contemporary Christian theology has found its way into the hearts and minds of emerging generations of Christians *The Theology of Dallas Willard* both describes and conveys the essence of this increasingly popular and perhaps mediating view of the gospel of Jesus Christ Blending both a prophetic critique with pastoral encouragement Willard's unique understanding of the reality present within a life lived as a disciple of Jesus in the kingdom of God is attracting both new and traditional Christians to reconsider their faith
