Mladjenovic,2022-03-24 Successful corporate executives face unique investing challenges because their personal wealth is irrevocably tied to their company s performance normal market ups and downs and even unexpected events An executive s investment portfolio may consist mostly of employer stock and stock options that are governed by rules the executive doesn t know about and can t control And the executive also faces a variety of other financial landmines ranging from taxes to corporate pension shortfalls So the forward thinking corporate executive badly needs effective financial management and investing strategies to build a financially secure future designed with the special needs of a corporate executive in mind That is what this guide will provide the essence of what investments and investing strategies the executive should consider employing to achieve financial independence sooner rather than later The audience for this investing guide includes C suite executives middle managers and those in supervisory positions with executive responsibilities or aspirations It will also be useful for MBA students those in executive education seminars and others who are planning corporate careers This book will teach the executive reader How to set the proper goals before investing How to maximize corporate resources for your investing goals How to understand and choose from the different types of investments including bank investments stocks mutual funds exchange traded funds ETFs venture capital investments real estate investments and alternative investments How design an effective portfolio strategy for an executive s situation      *Surviving 2013* ,      **Going for Gold** Zoltan

Erdey,2021-03-10 Do you want to build your wealth and secure your financial future Do you want to ensure that inflation does not eat away at everything that you have worked so hard for Do you want to own wealth outside of the paper financial system If your answer to these three questions is yes then you need to own real money Not rands dollars or euros these are merely fiat currencies You want to own gold and silver as without them your wealth is only worth the value of the ink and the

paper on which it is printed For thousands of years holders of gold and silver have discovered that both metals are monetary antidotes against global financial chaos caused by debt fiscal imprudence and ad infinitum money printing The proprietor of even a few ounces of gold is not only an investor but an individual with the assurance that their wealth and purchasing power remains preserved Going for Gold is not an attempt to coerce investors into allocating a portion of their total investment portfolio to precious metals Rather it speaks directly to the South African investor and declutters and contextualises the vast amounts of information available about precious metals providing counsel that the mainstream financial industry has disregarded at best and suppressed at worst

**Building Wealth with Silver** Thomas Herold, 2011-03 We are all using dangerous outdated old economic strategies to protect and grow our money in the so called new economy Most of us don't even know it Every economy is in some sense new However applying the rules from an older economy to a newer one during times of transition is a recipe for financial ruin Economic transitions have been around for centuries the difference is that now they are worldwide in scope and affect everything rather than local in nature with limited affects While you sleep at night while you go to work each day something insidious is actually stealing your financial future It isn't anyone's fault really There is a massive reallocation of wealth as we transition into the new economy There are two sides to this story Because of the changing rules of money the greatest transfer of wealth in the nation and the world is now unfolding Money is about to flow away from the financially uninformed and flow towards the financially well informed in the years ahead This is nothing new really Money has always worked this way The good news is that average members of the public now have more ways than ever before to understand this process and to take appropriate action I am sure you are aware of the rising price of gold that's been going on for almost 10 years now Most recently gold started climbing with even greater speed History repeats itself again and again Whenever governments start to dilute their money investors transfer their money into gold Gold has intrinsic value and will always prevail in any economy What most non investors and investors including yourself probably you don't realize is that although gold is a great way to preserve your wealth it's silver that could actually make you rich The price of gold has already risen dramatically but silver is just beginning its climb

**Nine Reasons Why Silver is a Unique Wealth Building Instrument** Silver like gold has intrinsic value Silver has been in a commodity bull cycle since 2000 Silver is a safe hedge against currency inflation Silver is a security choice during times of financial crisis Silver is rarer than gold Silver is used in 90% of all electronics and its mostly non renewable Silver inventories are very low Silver leasing the scam will be exposed soon Silver investment markets are expanding thanks to the Chinese

**What You Will Learn From Building Wealth with Silver** You will discover why the Federal Reserve was created and why you and I have been kept in the dark about its true purpose You will find out why the U S dollar is quietly being destroyed without fanfare and the reason this process is being publically denied and covered up You will see why unemployment numbers along with many other economic figures are rigged and how we're being lied to about their true significance The insights you get from the first few chapters alone

can change your life Even if you were to study at Harvard for five years which would cost you by the way over 95 000 you would not have the knowledge you need to get any closer to this kind of insider information Learn why silver is the best investment opportunity right now Get the facts on silver production and consumption and all the details behind silver s projected five to eight fold increase over the next several months *Rich Dad's Advisors: Guide to Investing In Gold and Silver* Michael Maloney,2008-08-28 Throughout the ages many things have been used as currency livestock grains spices shells beads and now paper But only two things have ever been money gold and silver When paper money becomes too abundant and thus loses its value man always turns back to precious metals During these times there is always an enormous wealth transfer and it is within your power to transfer that wealth away from you or toward you Michael Maloney precious metals investment expert and historian founder and principal Gold Silver Inc The Advanced Guide to Investing Gold and Silver tells readers The essential history of economic cycles that make gold and silver the ultimate monetary standard How the U S government is driving inflation by diluting our money supply and weakening our purchasing power Why precious metals are one of the most profitable easiest and safest investments you can make Where when and how to invest your money and realize maximum returns no matter what the economy s state Essential advice on avoiding the middleman and taking control of your financial destiny by making your investments directly Here's What You Do!
