to write a dissertation in archaeology Universities paid her less than her male counterparts Her husband refused to participate in housework or childcare Working in archaeology and in the histories of American First Nations Kehoe published a series of groundbreaking books and articles Although she was denied a conventional career through her unconventional breadth of research and her empathy with First Nations people she gained a wide circle of collaborators and colleagues Throughout her career Kehoe found and fostered a sisterhood of feminists strong bright women archaeologists anthropologists and ethnohistorians who have been essential to the field Girl Archaeologist is the story of how one woman pursued a professional career in a male dominated field during a time of great change in American middle class expectations for women
