the region *Constitutional Change and Democracy in Indonesia* Donald L. Horowitz, 2013-03-25 How did democracy become entrenched in the world's largest Muslim majority country After the fall of its authoritarian regime in 1998 Indonesia pursued an unusual course of democratization It was insider dominated and gradualist and it involved free elections before a lengthy process of constitutional reform At the end of the process Indonesia's amended constitution was essentially a new and thoroughly democratic document By proceeding as they did the Indonesians averted the conflict that would have arisen between adherents of the old constitution and proponents of radical immediate reform Donald L Horowitz documents the decisions that gave rise to this distinctive constitutional process He then traces the effects of the new institutions on Indonesian politics and discusses their shortcomings and their achievements in steering Indonesia away from the dangers of polarization and violence He also examines the Indonesian story in the context of comparative experience with constitutional design and intergroup conflict *Democratization and Civilian Control in Asia* A. The Politics of Military Reform Jürgen Rüländ, Maria-Gabriela Manea, Hans Born, 2012-09-03 This volume seeks to explain why democratization and military reforms stagnate in newly democratizing countries The contributions blend historical ideational cultural and structural explanatory factors to analyze the trajectories of military reform in Indonesia and Nigeria two major regional powers that share many structural commonalities In the tradition of the literature on security sector reform SSR the book not only scrutinizes executive initiatives toward military reform but also provides ample coverage of societal actors Findings show that while military reform is stagnating in both countries societal forces ought to be taken into account more as major driving forces in explaining military reform Several chapters study how legislatures non governmental organizations and the civilian defence epistemic community contribute to the transformation of military institutions The last part of the book tackles another aspect rarely studied in the literature on military reform namely the role of militias in military reform *The Indonesian Parliament and Democratization* Patrick Ziegenhain, 2008 Analyses the Indonesian parliament's contribution towards the process of democratization Contributes not only to research on the Indonesian democratization process but also to the comparative research on parliaments in transition processes in general

Martial Arts and the Body Politic in Indonesia Lee Wilson, 2015-03-31 In *Martial Arts and the Body Politic in Indonesia* Lee Wilson offers an innovative study of nationalism and the Indonesian state through the ethnography of the martial art of Pencak Silat Wilson shows how technologies of physical and spiritual warfare such as Pencak Silat have long played a prominent role in Indonesian political society He demonstrates the importance of these technologies to the display and performance of power and highlights the limitations of theories of secular modernity for understanding political forms in

contemporary Indonesia He offers a compelling argument for a revisionist account of models of power in Indonesia in which authority is understood as precarious and multiple and the body is politically charged because of its potential for transformation

Islam and Citizenship in Indonesia Robert W. Hefner, 2023-12-19 Islam and Citizenship in Indonesia examines the conditions facilitating democracy women's rights and inclusive citizenship in Indonesia the most populous Muslim majority country and

the third largest democracy in the world The book shows that Muslim understandings of Islamic traditions and ethics have coevolved with the understanding and practice of democracy and citizen belonging Following thirty two years of authoritarian rule in 1998 this sprawling Southeast Asian country returned to electoral democracy The achievement brought with it however an upsurge in both the numbers and assertiveness of Islamist militias as well as a sharp increase in violence against religious minorities The resulting mobilizations have pitted the Muslim supporters of an Indonesian variety of inclusive citizenship against populist proponents of Islamist majoritarianism Seen from this historical example the book demonstrates that Muslim actors come to know and practice Islam in a manner not determined in an unchanging way by scriptural commands but in coevolution with broader currents in politics society and citizen belonging By exploring these questions in both an Indonesian and comparative context this book offers important lessons on the challenge of democracy and inclusive citizenship in the Muslim majority world Well written and informative this book will be suitable for adoption in university courses on Islam Southeast Asian Politics Indonesian and Asian studies as well as courses dealing with religion democracy and citizen belonging in multicultural societies around the world The book will be of interest to the general reader with an interest in Islam citizenship and democracy *Aceh, Indonesia* Elizabeth F. Drexler, 2009-04-06 In 1998 Indonesia exploded with both euphoria and violence after the fall of its longtime authoritarian ruler Soeharto and his New Order regime Hope centered on establishing the rule of law securing civilian control over the military and ending corruption Indonesia under Soeharto was a fundamentally insecure state Shadowy organizations masterminds provocateurs puppet masters and other mysterious figures recalled the regime's inaugural massive anticommunist violence in 1965 and threatened to recreate those traumas in the present Threats metamorphosed into deadly violence in a seemingly endless spiral In Aceh province the cycle spun out of control and an imagined enemy came to life as armed separatist rebels Even as state violence and systematic human rights violations were publicly exposed after Soeharto's fall a lack of judicial accountability has perpetuated pervasive mistrust that undermines civil society Elizabeth F Drexler analyzes how the Indonesian state has sustained itself amid anxieties and insecurities generated by historical and human rights accounts of earlier episodes of violence In her examination of the Aceh conflict Drexler demonstrates the falsity of the reigning assumption of international human rights organizations that the exposure of past violence promotes accountability and reconciliation rather than the repetition of abuses She stresses that failed human rights interventions can be more dangerous than unexamined past conflicts since the international stage amplifies grievances and provides access for combatants to resources from outside the region Violent conflict itself as well as historical narratives of past violence become critical economic and political capital deepening the problem The book concludes with a consideration of the improved prospects for peace in Aceh following the devastating 2004 tsunami **The Politics of Securitization in Democratic Indonesia** Yandry Kurniawan, 2017-08-21 The book presents a novel analytical perspective on Indonesia's security policies during its

transition to democracy Kurniawan's analysis revolves around extraordinary measures and normal politics in response to the existential threat to the Indonesian state This perspective is at the centre of the analysis which examines the process of securitization and desecuritization taken by the Indonesian government This volume is essential reading for practitioners students of Indonesian politics and researchers alike IBSS: Political Science: 2004 Vol.52 The British Library of Political and Economic Science, 2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world's most expert librarians and academics Breadth Today the IBSS covers over 2000 journals more than any other comparable resource The latest monograph publications are also included International Coverage The IBSS reviews scholarship published in over thirty languages including publications from Eastern Europe and the developing world User friendly organization all non English titles are word sections Extensive author subject and place name indexes are provided in both English and French
