Language in Literature Jonathan Locke Hart, 2024-10-15

Language in Literature examines the overlap and blurring boundaries of English, comparative, and world poetry and literature. Questions of language, literature, translation, and creative writing are addressed as befitting an author who is a poet, literary scholar, and historian. The book begins with metaphor, which Aristotle thought in *Poetics* was the key gift of the poet, and discusses it in theory and practice. It moves from the identity of metaphor to identity in translation and culture. It examines poetry in a comparative and world context; it looks at image and text; it explores literature and culture in the Cold War; it explores the role of the poet and scholar in translating poetry East and West; it places creative writing in theory and practice in context East and West; it concludes by summing up and suggesting implications of creation in language, translating and interpreting, and its expression in literature, especially in poetry.

Milton's Italy Catherine Martin, 2016-12-01

This book joins a growing trend toward transnational literary studies and revives a venerable tradition of Anglo-Italian scholarship centering on John Milton. Correcting misperceptions that have diminished the international dimensions of his life and work, it broadly surveys Milton's Italianate studies, travels, poetics, politics, and religious convictions. While his debts to Machiavelli and other classical republicans are often noted, few contemporary critics have explored the Italian sources of his anti-papal, anti-episcopal, and anti-formalist religious outlook. Relying on Milton's own testimony, this book explores its roots in Dante, Petrarch, Ariosto, and that great Venetian enemy of the pope, Paolo Sarpi, thereby correcting a recent tendency to make native English contexts dominate his development. This tendency is partly due to a mistaken belief that Italy was in steep decline during and after Milton's travels of 1638-1639, the period immediately before he produced his prose critiques of the English Church, its canon law, and its censorship. Yet these were also fundamentally Italian issues that he skillfully adapted to meet contemporary English needs, a practice enabled by his extraordinarily positive experience of the Italian language, cities, academies, and music, the latter of which ultimately influenced Milton's operatic drama *Samson Agonistes*. Besides republicanism and theology, radical doctrines of free grace and free will, equally strong influences treated here, include Italian Neoplatonism, cosmology, and romance epic. By making these traditions his own, Milton became what John Steadman once described as an Italianate Englishman whose classical literary tastes and critical orientation were to a considerable extent molded by Italian critics. 1976, a view that is fully credited and updated here.

[Milton's Late Poems](#) Lee Morrissey, 2022-08-25

Upending conventional scholarship on Milton and modernity, Lee Morrissey recasts *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes* as narrating three alternative responses to a world in upheaval: adjustment, avoidance, and antagonism. Through incisive engagement with narrative form and genre, Morrissey shows how each work

considered specifically as a fiction grapples with the vicissitudes of a modern world characterised more by paradoxes ambiguities subversions and shifting temporalities than by any rigid historical periodization The interpretations made possible by this book are as invaluable as they are counterintuitive opening new definitions and stimulating avenues of research for Milton students and specialists as well as for those working in the broader field of early modern studies Morrissey invites us to rethink where Milton stands in relation to the greatest products of modernity and in particular to that most modern of genres the novel *University of Illinois Studies in Language and Literature* ,1929 **Contexts for Criticism** Donald Keeseey,1987 Contexts for Criticism introduces readers to the essential issues of literary interpretation The text includes three complete works Keats s Ode on a Grecian Urn Melville s Benito Cereno and Charlotte Perkins Gilman s The Yellow Wallpaper These texts plus Shakespeare s The Tempest are examined through seven fundamental critical theories Historical Author as Context and Culture as Context Formal Reader Response Mimetic Intertextual and Poststructural

Milton's Moving Bodies Marissa Greenberg,Rachel Trubowitz,2024-09-15 A collection of innovative examinations of embodiment in Milton s oeuvre that challenge assumptions about disciplinary boundaries This volume brings unprecedented focus to the forms spaces and implications of embodied motion in Milton s writing and its afterlives to explore how and why he privileges the body human and textual as a site of dynamic movement The contributors bring a variety of lenses to Milton s moving bodies political history kinematics mathematics cosmology translation illustration anatomies of racialized and disabled bodies and twenty first century pedagogies From these wide ranging vantage points they consider anew Milton s contributions to the histories of scientific development global exploration and imperial expansion migration and diaspora and translation and adaptation in England Europe and the Americas from the early modern period to today Milton s Moving Bodies draws together established and emerging scholars offering fresh analyses of the poet s legacy for multiple traditions within and beyond Milton studies **Early Modern Catholics, Royalists, and Cosmopolitans** Brian C. Lockety,2016-03-09 Early Modern Catholics Royalists and Cosmopolitans considers how the marginalized perspective of 16th century English Catholic exiles and 17th century English royalist exiles helped to generate a form of cosmopolitanism that was rooted in contemporary religious and national identities but also transcended those identities Author Brian C Lockety argues that English discourses of nationhood were in conversation with two opposing cosmopolitan perspectives one that sought to cultivate and sustain the emerging English nationalism and imperialism and another that challenged English nationhood from the perspective of those Englishmen who viewed the kingdom as one province within the larger transnational Christian commonwealth Lockety illustrates how the latter cosmopolitan perspective produced within two communities of exiled English subjects separated in time by half a century influenced fiction writers such as Sir Philip Sidney Edmund Spenser Anthony Munday Sir John Harington John Milton and Aphra Behn Ultimately he shows that early modern cosmopolitans critiqued the emerging discourse of English nationhood from a traditional religious and political perspective even as their

writings eventually gave rise to later secular Enlightenment forms of cosmopolitanism , Critical Voicings of Black Liberation Kimberley Louise Phillips,2003 The contributions to Critical Voices of Black Liberation in the Americas originated from the 1999 CAAR Conference in Munster and from conferences held in the US in 2000 and 2001 More than half of the eleven essays consider black performances on stage in sound and on film the remaining essays explore slavery African American literature and nineteenth century black educators These exciting essays creatively examine artistic and or political articulation of black liberation as the construction of a new critical and signifyin g voice This liberated and critical voice asserts itself as much as a communal expression of black subjectivities as it is an articulation of the black self **The Northrop Frye Quote Book** Northrop Frye,2014-02-24 Here is a specialized dictionary of quotations based on the thoughts and writings of a single person It is evidence that there is a Canadian writer of whom it may be said that we as his readers can grow up inside his work without ever being aware of a circumference **Milton's Scriptural Reasoning** Phillip J. Donnelly,2009-02-19 John Milton s major poems have long provoked wide ranging judgements about the purposes of his biblical engagement In this elegant and insightful study Phillip J Donnelly transforms our common perceptions about Milton s writing He challenges the traditional assumption that the poet shared our modern view that reason is a capacity whose purpose is to control nature Instead Milton s conception of reason both human and divine is bound up with a poetic sense of difference a capacity for being faithful to a goodness and beauty that survives the effects of human frailty in the fall Providing fresh new readings of Paradise Lost Paradise Regained and Samson Agonistes Donnelly gives us important new perspectives on Milton s aesthetics theology and politics **From Academia to Amicitia** Estelle Haan,1998 A detailed study of the Latin poetry by the 17th century English poet and how it was influenced by his reading of Italian history his travels in the country and his contact with contemporary Italian scholars Excerpts are in both the original Latin and English Annotation copyrighted by Book News Inc Portland OR **Singing by Herself** Amelia Worsley,2024-08-15 Singing by Herself reinterprets the rise of literary loneliness by foregrounding the female and feminized figures who have been overlooked in previous histories of solitude Many of the earliest records of the terms lonely and loneliness in British literature describe solitaires whose songs positioned them within the tradition of female complaint Amelia Worsley shows how these feminized solitaires for whom loneliness was both a space of danger and a space of productive retreat helped to make loneliness attractive to future lonely poets despite the sense of suspicion it evoked Although loneliness today is often associated with states of atomized interiority soliloquy and self enclosure this study of eighteenth century poetry disrupts the presumed association between isolation singular speech and bounded models of poetic subjectivity In five chapters focused on lonely poet figures in the works of John Milton Anne Finch Alexander Pope Thomas Gray and Charlotte Smith which also take account of the wider eighteenth century fascination with literary loneliness Singing by Herself shows how poets increasingly associated the new literary mode of being alone with states of disembodiment dispersal and echoic self doubling Seemingly

solitary lonely voices often dissolve into polyvocal allusive community Worsley argues when in dialogue with each other and also with classical figures of feminized lament such as Sappho Echo and Philomela The book s provocative reflections on lyric mean that it will have a broad appeal to scholars interested in the history of poetry and poetics as well as to those who study the literary history of gender affect and emotion **Milton's Ovidian Eve** Mandy Green,2016-04-22 Milton s Ovidian Eve presents a fresh and thorough exploration of the classical allusions central to understanding Paradise Lost and to understanding Eve one of Milton s most complex characters Mandy Green demonstrates how Milton appropriates narrative structures verbal echoes and literary strategies from the Metamorphoses to create a subtle and evolving portrait of Eve Each chapter examines a different aspect of Eve s mythological figurations Green traces Eve s development through multiple critical lenses influenced by theological ecocritical and feminist readings Her analysis is gracefully situated between existing Milton scholarship and close textual readings and is supported by learned references to seventeenth century writing about women the allegorical tradition of Ovidian commentary hexameral literature theological contexts and biblical iconography This detailed scholarly treatment of Eve simultaneously illuminates our understanding of the character establishes Milton s reading of Ovid as central to his poetic success and provides a candid synthesis and reconciliation of earlier interpretations
