examines it And so does Kabbalah But Kabbalah says more even the Creator of reality is found within the observer In other words God is inside of us he doesn't exist anywhere else When we pass away so does he These earthshaking concepts and more are eloquently introduced so that even readers uneducated in Kabbalah or science will easily understand them Therefore if you're just a little curious about why you are here what life means and what you can do to enjoy it more this is your book

Quantum Physics is NOT Weird Paul J. van Leeuwen, 2022-02-26 Quantum Physics shows us that we create what we observe Countless experiments confirm that it is our information which manifests reality Matter and time are created by our observation This is not only true when we do experiments in laboratories but it works the same way in everyday reality We manifest our own experiences Science does not prove that our consciousness must be a product of our material brain On
