Schober,2004-07-30 This book undertakes a study of the trope of possessed child in literature and film It argues that the possessed child is fundamentally an American phenomenon which first may be traced to the Calvinist bias of the US as a nation founded on Puritanism and second to the rise of Catholicism in that country to which Puritanism owes its origins *Writing the Wisdom* Barbara Glasson,Penny Johnson,2022-04-15 Writing the Wisdom explores the emotional impact of childhood sexual abuse in an informative and accessible way whilst also giving a rare insight through writing into the lived experience of survivors *Rethinking Trauma Treatment: Attachment, Memory Reconsolidation, and Resilience* Courtney Armstrong,2019-06-25 Creating safety hope and secure attachment to transform traumatic memories What makes trauma therapy effective The answers might surprise you While therapists have been bombarded with brain science hundreds of new models and pressure to use evidence based techniques research has demonstrated that the therapeutic relationship ultimately predicts therapy outcomes This is especially true for traumatized clients But what kind of therapeutic relationship Forming a secure therapeutic alliance with traumatized clients is tricky How do you help clients trust you after they ve been abused betrayed or exploited How do you instill hope and convince clients who ve been devastated by loss to believe that a better life is possible In this accessible guide Courtney Armstrong distills discoveries from attachment theory brain science and post traumatic growth into practical strategies you can use to 1 build trust and a secure therapeutic relationship 2 transform traumatic memories into stories of triumph and courage and 3 help clients cultivate resilience and a positive post trauma identity Packed with dozens of scripts step by step worksheets and inspiring client stories this book gives you tools for each phase of the trauma therapy process and shows you how to Engage and motivate clients based on their attachment style Manage trauma related dissociation

anxiety and anger Transform traumatic memories so they no longer haunt your client Work with different types of trauma from sexual abuse to traumatic grief Evoke inner resources for healing and positive emotional states Counter compassion fatigue and burnout so you can thrive as a therapist Merely talking about a traumatic event is not enough because the parts of the brain where traumatic implicit memories are stored don't understand words Heartfelt relational experiences catalyze brain change and buffer the impact of trauma In this book Armstrong demonstrates that neuroscience is validating what therapists have suspected all along the brain changes through the heart *The Journal of Transpersonal Psychology*, 1999
