Militarizing Men Gender Conscription And War In Post Soviet Russia:

Militarizing Men Maya Eichler, 2011-10-26 A state's ability to maintain mandatory conscription and wage war rests on the idea that a real man is one who has served in the military Yet masculinity has no inherent ties to militarism The link between men and the military argues Maya Eichler must be produced and reproduced in order to fill the ranks engage in combat and mobilize the population behind war In the context of Russia's post communist transition and the Chechen wars men's militarization has been challenged and reinforced Eichler uncovers the challenges by exploring widespread draft evasion and desertion anti draft and anti war activism led by soldiers mothers and the general lack of popular support for the Chechen wars However the book also identifies channels through which militarized gender identities have been reproduced Eichler's empirical and theoretical study of masculinities in international relations applies for the first time the concept of militarized masculinity developed by feminist IR scholars to the case of Russia *Military Masculinity and Postwar Recovery in the Soviet Union* Erica L. Fraser, 2019-01-01 Catastrophic wartime casualties and postwar discomfort with the successes of women who had served in combat roles combined to shatter prewar ideals about what service meant for Soviet masculine identity The soldier had to be re imagined and resold to a public that had just emerged from the Second World War and a younger generation suspicious of state control In doing so Soviet military culture wrote women out and attempted to re establish soldiering as the premier form of masculinity in society *Military Masculinity and Postwar Recovery in the Soviet Union* combines textual and visual analysis as well as archival research to highlight the multiple narratives that contributed to rebuilding military identities Each chapter visits a particular site of this reconstruction including debates about conscription and evasion appropriate role models for cadets misogynist military imagery in cartoons the fraught militarized workplaces of nuclear physicists and the first cohort of cosmonauts who represented the completion of the project to rebuild militarized masculinity **Gender and Choice after Socialism** Lynne Attwood, Elisabeth Schimpfössl, Marina Yusupova, 2018-04-25 The end of socialism in the Soviet Union and its satellite states ushered in a new era of choice Yet the idea that people are really free to live as they choose turns out to be problematic Personal choice is limited by a range of factors such as a person's economic situation class age government policies and social expectations especially regarding gender roles Furthermore the notion of free choice is a crucial feature of capitalist ideology and can be manipulated in the interests of the market This edited collection explores the complexity of choice in Russia and Ukraine The contributors explore how the new choices available to people after the collapse of the Soviet Union have interacted with and influenced gender identities and gender and how choice has become one of the driving forces of class formation in countries which were in the Soviet era supposedly classless The book will of interest to students and scholars across a range of subjects including gender and sexualities studies history sociology and political science Globalization and Militarism Cynthia Enloe, 2016-03-02 Militarism is being globalized today not only in war zones such as Ukraine and Syria but in peaceful arenas

such as families and football stadiums Ideas and practices of masculinities and femininities are fuel for this global militarization Who is presumed to be weak and who tough Who is the protector who the grateful protected Written by one of the world's leading feminist scholars this masterful and provocative newly updated edition tracks how women's desires to be patriotic yet feminine and men's fears of being feminized each have been exploited to globalize militarism and thus what it will take to roll back militarization anywhere Here are explorations of how governments shrink the meaning of national security how Nike and Adidas rely on militaries to keep women workers wages low how ideas about feminization were used to humiliate male prisoners in Abu Ghraib and of why camo became a fashion statement Cynthia Enloe offers readers a practical gender analysis tool kit with which to expose militarism's blatant and subtle workings Focusing her lens on the big picture of international politics and on the not so small picture of women's and men's complex everyday lives Enloe challenges us to chart militarism in all its forms in this updated edition

Conscript Nation Elizabeth Shesko, 2020-05-12 Military service in Bolivia has long been compulsory for young men This service plays an important role in defining identity citizenship masculinity state formation and civil military relations in twentieth century Bolivia The project of obligatory military service originated as part of an attempt to restrict the power of indigenous communities after the 1899 civil war During the following century administrations from oligarchic to revolutionary expressed faith in the power of the barracks to assimilate shape and educate the population Drawing on a body of internal military records never before used by scholars Elizabeth Shesko argues that conscription evolved into a pact between the state and society It not only was imposed from above but was also embraced from below because it provided a space for Bolivians across divides of education ethnicity and social class to negotiate their relationships with each other and with the state Shesko contends that state formation built around military service has been characterized in Bolivia by multiple layers of negotiation and accommodation The resulting nation state was and is still hierarchical and divided by profound differences but it never was simply an assimilatory project It instead reflected a dialectical process to define the state and its relationships
